**IW#18.02.01 – Juniper Point Association – management of invasive species**

Luke Johnson of All Habitat Services overviewed where the invasive species removal activities would occur and reiterated any native beneficial species would remain in these areas. The Commission walked the property. It was noted that the site was already soft which would inhibit use of low pressure mower and that work needs to be completed before nesting season begins.

Meeting adjourned at 4:30 pm.

Respectfully submitted
