Subject: Required Votes for Healthy Food Certification

In order to maintain Healthy Food Certification and receive the additional 10 cents per reimbursable lunch (paid, free and reduced), we must certify annually to the Connecticut State Department of Education our intentions with respect to following the Connecticut Nutrition Standards. That certification includes documentation of Board of Education action on the following motions. The beverage portion of the food and beverage exemption is unrelated to Healthy Food Certification, as compliant beverages are required of all Connecticut public schools. Without the beverage exemption, the district's schools can never sell noncompliant beverages to students.

A yes or no vote is required on each motion and the motions must be made with the following specific language, which must be reflected in the minutes:

1. Healthy food option motion

Pursuant to C.G.S. Section 10-215f, the board of education certifies that all food items offered for sale to students in the schools under its jurisdiction, and not exempted from the Connecticut Nutrition Standards published by the Connecticut State Department of Education, will comply with the Connecticut Nutrition Standards during the period of July 1, 2024, through June 30, 2025. This certification shall include all food offered for sale to students separately from reimbursable meals at all times and from all sources, including but not limited to school stores, vending machines, school cafeterias, culinary programs, and any fundraising activities on school premises sponsored by the school or non-school organizations and groups

I recommend a "Yes" vote on the first motion.

2. Food and beverage exemption motion

The Board of Education will allow the sale to students of food items that do not meet the Connecticut Nutrition Standards and beverages not listed in Section 10-221q of the Connecticut General Statutes provided that the following conditions are met:

- 1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend;
- 2) the sale is at the location of the event; and
- 3) the food and beverage items are not sold from a vending machine or school store.

An "event" is an occurrence that involves more than just a regularly scheduled practice, meeting, or extracurricular activity. For example, soccer games, school plays, and interscholastic debates are events but soccer practices, play

rehearsals, and debate team meetings are not. The “regular school day” is the period from midnight before to 30 minutes after the end of the official school day. “Location” means where the event is being held and must be the same place as the food and beverage sales.

I recommend a “Yes” vote on the second motion.

REPORTS OF SUSPECTED ABUSE OR NEGLECT OF CHILDREN OR REPORTS OF SEXUAL ASSAULT OF STUDENTS BY SCHOOL EMPLOYEES

Conn. Gen. Stat. Section 17a-101 et seq. requires school employees who have reasonable cause to suspect or believe (1) that any child under eighteen has been abused or neglected, has had a nonaccidental physical injury, or injury which is at variance with the history given of such injury, or has been placed at imminent risk of serious harm, or (2) that any person who is being educated by the Technical Education and Career System or a local or regional board of education, other than as part of an adult education program, is a victim of sexual assault, and the perpetrator is a school employee, to report such suspicions to the appropriate authority. In furtherance of this statute and its purpose, it is the policy of the Branford Board of Education ("Board") to require ALL EMPLOYEES of the Board of Education to report suspected abuse and/or neglect, nonaccidental physical injury, imminent risk of serious harm, or sexual assault of a student by a school employee, in accordance with the procedures set forth below.

1. Scope of Policy

This policy applies not only to school employees who are required by law to report suspected child abuse and/or neglect, nonaccidental physical injury, imminent risk of serious harm, or sexual assault of a student by a school employee, but to ALL EMPLOYEES of the Board of Education.

2. Definitions

For the purposes of this policy:

"Abused" means that a child (a) has had physical injury or injuries inflicted upon the child other than by accidental means, or (b) has injuries which are at variance with the history given of them, or (c) is in a condition which is the result of maltreatment, such as, but not limited to, malnutrition, sexual molestation or exploitation, deprivation of necessities, emotional maltreatment or cruel punishment.

"Neglected" means that a child (a) has been abandoned, or (b) is being denied proper care and attention, physically, educationally, emotionally or morally, or (c) is being permitted to live under conditions, circumstances or associations injurious to the child's well-being, or (d) has been abused.

"School employee" means (a) a teacher, substitute teacher, school administrator, school superintendent, guidance counselor, school counselor, psychologist, social worker, nurse, physician, school paraprofessional or coach employed by the Board or who is working in a Board elementary, middle or high school; or (b) any other person who, in the performance of that person's duties, has regular contact with students and who provides services to or on behalf of students enrolled in the Branford Public Schools ("District"), pursuant to a contract with the Board.

"Sexual assault" means, for the purposes of the mandatory reporting laws and this policy, a violation of Sections 53a-70, 53a-70a, 53a-71, 53a-72a, 53a-72b or 53a-73a of the Connecticut General Statutes. Please see Appendix A of this policy for the relevant statutory definitions of sexual assault laws and related terms covered by the mandatory reporting laws and this policy.

"Statutorily mandated reporter" means an individual required by Conn. Gen. Stat. Section 17a-101 *et seq.* to report suspected abuse and/or neglect of children or the sexual assault of a student by a school employee. The term "statutorily mandated reporter" includes all school employees, as defined above, any person who is a licensed behavior analyst, and any person who holds or is issued a coaching permit by the State Board of Education, is a coach of intramural or interscholastic athletics, and is eighteen years of age or older.

3. What Must Be Reported

- a) A report must be made when any employee of the Board of Education in the ordinary course of such person's employment or profession has reasonable cause to suspect or believe that any child under the age of eighteen years:
 - i) has been abused or neglected;
 - ii) has had nonaccidental physical injury, or injury which is at variance with the history given for such injury, inflicted upon the child;
 - iii) is placed at imminent risk of serious harm; or
- b) A report must be made when any employee of the Board of Education in the ordinary course of such person's employment or profession has reasonable cause to suspect or believe that any person, regardless of age, who is being educated by the Technical Education and Career System or a local or regional board of education, other than as part of an adult education program, is a victim of the following sexual assault crimes, and the perpetrator is a school employee:

- i) sexual assault in the first degree;
- ii) aggravated sexual assault in the first degree;
- iii) sexual assault in the second degree;
- iv) sexual assault in the third degree;
- v) sexual assault in the third degree with a firearm; or
- vi) sexual assault in the fourth degree.

Please see Appendix A of this policy for the relevant statutory definitions of sexual assault laws and related terms covered by the mandatory reporting laws and this policy.

- c) The suspicion or belief of a Board employee may be based on factors including, but not limited to, observations, allegations, facts or statements by a child or victim, as described above, or a third party. Such suspicion or belief does not require certainty or probable cause.

4. Reporting Procedures for Statutorily Mandated Reporters

The following procedures apply only to statutorily mandated reporters, as defined above.

- a) When an employee of the Board of Education who is a statutorily mandated reporter and who, in the ordinary course of the person's employment, has reasonable cause to suspect or believe that a child has been abused or neglected or placed at imminent risk of serious harm, or a student is a victim of sexual assault by a school employee, as described in Paragraph 3, above, the following steps shall be taken.

- (1) The employee shall make an oral or electronic report as soon as practicable, but not later than twelve (12) hours after having reasonable cause to suspect or believe that a child has been abused or neglected or placed at imminent risk of serious harm, or a student is a victim of sexual assault by a school employee.

- (a) An oral report shall be made by telephone or in person to the Commissioner of the Department of Children and Families ("DCF") or the local law enforcement agency. DCF has established a 24 hour Child Abuse and Neglect Careline at 1-800-842-2288 for the purpose of making such oral reports.

- (b) An electronic report shall be made in the manner prescribed by the Commissioner of DCF or Commissioner's designee. An employee making an electronic report shall respond to further inquiries from the Commissioner of DCF or designee made within twenty-four (24) hours. Such employee shall inform the Superintendent or Superintendent's designee as soon as possible as to the nature of the further communication with the Commissioner or Commissioner's designee.
- (2) The employee shall also make an oral report as soon as practicable to the Building Principal or Building Principal's designee, and/or the Superintendent or Superintendent's designee. If the Building Principal is the alleged perpetrator of the abuse/neglect or sexual assault of a student, then the employee shall notify the Superintendent or Superintendent's designee directly.
- (3) In cases involving suspected or believed abuse, neglect, or sexual assault of a student by a school employee, the Superintendent or Superintendent's designee shall immediately notify the child's parent or guardian that such a report has been made.
- (4) Not later than forty-eight (48) hours after making an oral report, the employee shall submit a written or electronic report to the Commissioner of DCF or the Commissioner's designee containing all of the required information. The written or electronic report should be submitted in the manner prescribed by the Commissioner of DCF. When such report is submitted electronically, the employee shall respond to further inquiries from the Commissioner of DCF or Commissioner's designee made within twenty-four (24) hours. Such employee shall inform the Superintendent or Superintendent's designee as soon as possible as to the nature of the further communication with the Commissioner or Commissioner's designee.
- (5) The employee shall immediately submit a copy of the written or electronic report to the Building Principal or Building Principal's designee and to the Superintendent or the Superintendent's designee.
- (6) If the report concerns suspected abuse, neglect, or sexual assault of a student by a school employee holding a certificate, authorization or permit issued by the State Department of Education, the Commissioner of DCF (or Commissioner of

DCF's designee) shall submit a copy of the written or electronic report to the Commissioner of Education (or Commissioner of Education's designee).

5. Reporting Procedures for Employees Other Than Statutorily Mandated Reporters

The following procedures apply only to employees who are not statutorily mandated reporters, as defined above.

- a) When an employee who is not a statutorily mandated reporter and who, in the ordinary course of the person's employment or profession, has reasonable cause to suspect or believe that a child has been abused or neglected or placed at imminent risk of serious harm, or a student is a victim of sexual assault by a school employee, as described in Paragraph 3, above, the following steps shall be taken.
 - (1) The employee shall make an oral report as soon as practicable, but not later than twelve (12) hours after the employee has reasonable cause to suspect or believe that a child has been abused or neglected or placed at imminent risk of serious harm or a student is a victim of sexual assault by a school employee. Such oral report shall be made by telephone or in person to the Superintendent of Schools or Superintendent's designee, to be followed by an immediate written report to the Superintendent or Superintendent's designee.
 - (2) If the Superintendent or Superintendent's designee determines that there is reasonable cause to suspect or believe that a child has been abused or neglected or placed at imminent risk of serious harm or a student is a victim of sexual assault by a school employee, the Superintendent or designee shall cause reports to be made in accordance with the procedures set forth for statutorily mandated reporters.
- b) Nothing in this policy shall be construed to preclude an employee reporting suspected child abuse, neglect or sexual assault by a school employee from reporting the same directly to the Commissioner of DCF.

6. Contents of Reports

Any report made pursuant to this policy shall contain the following information, if known:

- a) The names and addresses of the child* and the child's parents or other person responsible for his/her care;

*For purposes of this Paragraph, the term "child" includes any victim of sexual assault by a school employee, as described in Paragraph 3, above.

7. Investigation of the Report

- a) The Superintendent or Superintendent's designee shall thoroughly investigate reports of suspected abuse, neglect or sexual assault if/when such report involves an employee of the Board of Education or other individual under the control of the Board, provided the procedures in subparagraph (b), below are followed. In all other cases, DCF shall be responsible for conducting the investigation with the cooperation and collaboration of the Board, as appropriate.

- b) Recognizing that DCF is the lead agency for the investigation of child abuse and neglect reports and reports of a student's sexual assault by school employees, the Superintendent's investigation shall permit and give priority to any investigation conducted by the Commissioner of DCF or the appropriate local law enforcement agency. The Superintendent shall conduct the District's investigation and take any disciplinary action, consistent with state law, upon notice from the Commissioner of DCF or the appropriate local law enforcement agency that the District's investigation will not interfere with the investigation of the Commissioner of DCF or the local law enforcement agency.
 - c) The Superintendent or designee shall coordinate investigatory activities in order to minimize the number of interviews of any child or student victim of sexual assault and share information with other persons authorized to conduct an investigation of child abuse or neglect or sexual assault,, as appropriate.
 - d) Any person reporting child abuse or neglect or the sexual assault of a student by a school employee, or having any information relevant to alleged abuse or neglect or of the sexual assault of a student by a school employee, shall provide the Superintendent with all information related to the investigation that is in the possession or control of such person, except as expressly prohibited by state or federal law.
 - e) When the school district is conducting an investigation involving suspected abuse or neglect or sexual assault of a student by an employee of the Board or other individual under the control of the Board, the Superintendent's investigation shall include an opportunity for the individual suspected of abuse, neglect or sexual assault to be heard with respect to the allegations contained within the report. During the course of such investigation, the Superintendent may suspend a Board employee with pay or may place the employee on administrative leave with pay, pending the outcome of the investigation. If the individual is one who provides services to or on behalf of students enrolled in the District, pursuant to a contract with the Board of Education, the Superintendent may suspend the provision of such services, and direct the individual to refrain from any contact with students enrolled in the District, pending the outcome of the investigation.
8. Evidence of Abuse, Neglect or Sexual Assault by a School Employee
- a) If, upon completion of the investigation by the Commissioner of DCF ("Commissioner"), the Superintendent has received a report from the Commissioner that the Commissioner has reasonable cause to believe that (1) a child has been abused or neglected by a school employee, as

defined above, and the Commissioner has recommended that such employee be placed on the DCF Child Abuse and Neglect Registry, or (2) a student is a victim of sexual assault by a school employee, the Superintendent shall request (and the law provides) that DCF notify the Superintendent not later than five (5) working days after such finding, and provide the Superintendent with records, whether or not created by DCF, concerning such investigation. The Superintendent shall suspend such school employee. Such suspension shall be with pay and shall not result in the diminution or termination of benefits to such employee.

- b) Not later than seventy-two (72) hours after such suspension, the Superintendent shall notify the Board of Education and the Commissioner of Education, or the Commissioner of Education's representative, of the reasons for and the conditions of the suspension. The Superintendent shall disclose such records to the Commissioner of Education and the Board of Education or its attorney for purposes of review of employment status or the status of such employee's certificate, permit or authorization, if any.
- c) The suspension of a school employee employed in a position requiring a certificate shall remain in effect until the Superintendent and/or Board of Education acts pursuant to the provisions of Conn. Gen. Stat. §10-151. If the contract of employment of such certified school employee is terminated, or such certified school employee resigns such employment, the Superintendent shall notify the Commissioner of Education, or the Commissioner of Education's representative, within seventy-two (72) hours after such termination or resignation.
- d) The suspension of a school employee employed in a position requiring an authorization or permit shall remain in effect until the Superintendent and/or Board of Education acts pursuant to any applicable termination provisions. If the contract of employment of a school employee holding an authorization or permit from the State Department of Education is terminated, or such school employee resigns such employment, the Superintendent shall notify the Commissioner of Education, or the Commissioner of Education's representative, within seventy-two (72) hours after such termination or resignation.
- e) Regardless of the outcome of any investigation by the Commissioner of DCF and/or the police, the Superintendent and/or the Board, as appropriate, may take disciplinary action, up to and including termination of employment, in accordance with the provisions of any applicable statute, if the Superintendent's investigation produces evidence that a child has been abused or neglected by a school employee or that a student has been a victim of sexual assault by a school employee.

- f) The District shall not employ a person whose employment contract is terminated or who resigned from employment following a suspension pursuant to Paragraph 8(a) of this policy and Conn. Gen. Stat. § 17a-101i, if such person is convicted of a crime involving an act of child abuse or neglect or an act of sexual assault of a student, as described in Paragraph 2 of this policy.
9. Evidence of Abuse, Neglect or Sexual Assault by an Independent Contractor of the Board of Education
- If the investigation by the Superintendent and/or the Commissioner of DCF produces evidence that a child has been abused or neglected, or a student has been sexually assaulted, by any individual who provides services to or on behalf of students enrolled in the District, pursuant to a contract with the Board, the Superintendent shall permanently suspend the provision of such services, and direct the individual to refrain from any contact with students enrolled in the District.

The confidential rapid response team shall consist of a certified staff member and the Superintendent, a local police officer and any other person the Board of Education, acting through its Superintendent, deems appropriate.
12. Disciplinary Action for Failure to Follow Policy
- Except as provided in Section 14 below, any employee who fails to comply with the requirements of this policy shall be subject to discipline, up to and including termination of employment.
13. The District shall not hire any person whose employment contract was previously terminated by a board of education or who resigned from such employment, if such person has been convicted of a violation of Section

17a-101a of the Connecticut General Statutes, as amended, relating to mandatory reporting, when an allegation of abuse or neglect or sexual assault has been substantiated.

14. Non-Discrimination Policy/Prohibition Against Retaliation

The Board of Education expressly prohibits retaliation against individuals reporting child abuse or neglect or the sexual assault of a student by a school employee and shall not discharge or in any manner discriminate or retaliate against any employee who, in good faith, makes a report pursuant to this policy, or testifies or is about to testify in any proceeding involving abuse or neglect or sexual assault by a school employee. The Board of Education also prohibits any employee from hindering or preventing or attempting to hinder or prevent any employee from making a report pursuant to this policy or state law concerning suspected child abuse or neglect or the sexual assault of a student by a school employee or testifying in any proceeding involving child abuse or neglect or the sexual assault of a student by a school employee.

15. Distribution of Policy, Guidelines and Posting of Careline Information

This policy shall annually be distributed electronically to all school employees employed by the Board. The Board shall document that all such school employees have received this written policy and completed the training and refresher training programs required by in Section 16, below. Guidelines regarding identifying and reporting child sexual abuse developed by the Governor's task force on justice for abused children shall annually be distributed electronically to all school employees, Board members, and the parents or guardians of students enrolled in the schools under the jurisdiction of the Board. The Board shall post the Internet web site address and telephone number for the DCF Child Abuse and Neglect Careline in a conspicuous location frequented by students in each school under the jurisdiction of the Board.

- b) All school employees, as defined above, shall take a refresher training course developed and approved by the Commissioner of DCF at least once every three years.
- c) The principal for each school shall annually certify to the Superintendent that each school employee, as defined above, working at such school, is

in compliance with the training provisions in this policy and as required by state law. The Superintendent shall certify such compliance to the State Board of Education.

- d) Beginning July 1, 2023, all school employees, as defined above, shall complete the (1) training regarding the prevention and identification of, and response to, child sexual abuse and assault; (2) bystander training program; and (3) appropriate interaction with children training program. Each employee must repeat these trainings at least once every three years. Such trainings shall be identified or developed by DCF.

17. Records

Such records shall include any reports made to DCF. The State Department of Education shall have access to such records upon request.
- b) Notwithstanding the provisions of Conn. Gen. Stat. §10-151c, the Board shall provide the Commissioner of DCF, upon request and for the purposes of an investigation by the Commissioner of DCF of suspected child abuse or neglect by a teacher employed by the Board, any records maintained or kept on file by the Board. Such records shall include, but not be limited to, supervisory records, reports of competence, personal character and efficiency maintained in such teacher's personnel file with reference to evaluation of performance as a professional employee of the Board, and records of the personal misconduct of such teacher. For purposes of this section, "teacher" includes each certified professional employee below the rank of superintendent employed by the Board in a position requiring a certificate issued by the State Board of Education.

18. Child Sexual Abuse and/or Sexual Assault Response Policy and Reporting Procedure

The Board has adopted a uniform child sexual abuse and/or sexual assault response policy and reporting procedure in connection with the implementation of its sexual assault and abuse prevention and awareness program identified or developed by DCF, as outlined in Board Policy *4200P Child Abuse or Neglect Reporting*. Upon receipt of any report of suspected child sexual abuse and/or sexual assault from any source, a school employee is required to report such suspicion to the building principal in addition to complying with the school

employee's obligations under this Policy and the law regarding mandatory reporting of abuse, neglect and sexual assault.

The following operational definitions are working definitions and examples of child abuse and neglect as used by the Connecticut DCF.

For the purposes of these operational definitions,

- A person responsible for a child's health, welfare or care means:
 - the child's parent, guardian, or foster parent; an employee of a public or private residential home, agency or institution or other person legally responsible under State law for the child's welfare in a residential setting; or any staff person providing out-of-home care, including center-based child day care, family day care, or group day care.

 - While only a child under eighteen may be a victim of child abuse or neglect, a report under mandatory reporting laws and this policy is required if an employee of the Board of Education in the ordinary course of such person's employment or profession has reasonable cause to suspect or believe that any person, regardless of age, who is being educated by the Technical Education and Career System or a local or regional board of education, other than as part of an adult education program, is a victim of sexual assault, as set forth in this policy, and the perpetrator is a school employee.

holding the child responsible for the care of siblings or others beyond the child's ability; and/or

failure to provide reasonable and proper supervision of a child given the child's age and cognitive abilities.

Note:

- Inadequate food, clothing, or shelter or transience finding must be related to caregiver acts of omission or commission and not simply a function of poverty alone.
- Whether or not the adverse impact has to be demonstrated is a function of the child's age, cognitive abilities, verbal ability and developmental level.
- The presence of legal or illegal substances in the bodily fluids of (1) a parent or legal guardian or (2) a pregnant person shall not form the sole or primary basis for any action or proceeding by the Department. Any action or proceeding by the Department must be based on harm or risk of harm to a child and the parent or guardian's ability to provide appropriate care for the child.
- Adverse impact may not be required if the action/inaction is a single incident that demonstrates a serious disregard for the child's welfare.

Medical Neglect

Medical Neglect is the unreasonable delay, refusal or failure on the part of the person responsible for the child's health, welfare or care or the person entrusted with the child's care to seek, obtain, and/or maintain those services for necessary medical, dental or mental health care when such person knows, or should reasonably be expected to know, that such actions may have an adverse impact on the child.

Note: Failure to provide the child with immunizations or routine well-child care in and of itself does not constitute medical neglect.

Educational Neglect

Except as noted below, **Educational Neglect** occurs when a school-aged child has excessive absences from school through the intent or neglect of the parent or caregiver.

Definition of School-Aged Child: Except as noted below, a school-aged child is a child five years of age and older and under 18 years of age who is not a high school graduate. **Note:** Excessive absenteeism and school avoidance may be presenting symptoms of a failure to meet the physical, emotional or medical needs of a child. Careline staff shall consider these potential additional allegations at the time of referral.

Criteria:

- **For children school-aged to age 12, excessive absenteeism** may be indicative of the parent's or caregiver's failure to meet the educational needs of a student.
- **For children older than age 12, excessive absenteeism**, coupled with a failure by the parent or caregiver to engage in efforts to improve the child's attendance, may be indicative of educational neglect.

- For children older than age 12, excessive absenteeism through the child's own intent, despite the parent's or caregiver's efforts, is not educational neglect. Rather, this is truancy, which is handled through the school district.

Child's Characteristics. In determining the criteria for excessive absenteeism, the following characteristics of the child shall be considered by the social worker:

- Age;
- Health;
- Level of functioning;
- Academic standing; and
- Dependency on parent or caregiver

Parent or Caregiver's Characteristics. In determining the criteria for excessive absenteeism, the following characteristics of the parent or caregiver shall be considered by the social worker:

- Rationale provided for the absences;
- Efforts to communicate and engage with the educational provider; and
- Failure to enroll a school-aged child in appropriate educational programming (including homeschooling)

Exceptions (in accordance with Conn. Gen. Stat. § 10-184):

1. A parent or person having control of a child may exercise the option of not sending the child to school at age five (5) or age six (6) years by personally appearing at the school district office and signing an option form. In these cases, educational neglect occurs if the parent or person having control of the child has registered the child at age five (5) or age (6) years and then does not allow the child to attend school or receive home instruction.
2. A parent or person having control of a child seventeen (17) years of age may consent to such child's withdrawal from school. Such parent or person shall personally appear at the school district office and sign a withdrawal form.

Note: Failure to sign a registration option form for such child is not in and of itself educational neglect.

Emotional Neglect

Emotional Neglect is the denial of proper care and attention, or failure to respond, to a child's affective needs by the person responsible for the child's health, welfare or care; by the person given access to the child; or by the person entrusted with the child's care

which has an adverse impact on the child or seriously interferes with a child's positive emotional development.

Note: Whether or not the adverse impact has to be demonstrated is a function of the child's age, cognitive abilities, verbal ability and developmental level. Adverse impact is not required if the action/inaction is a single incident which demonstrates a serious disregard for the child's welfare.

Note: The adverse impact may result from a single event and/or from a consistent pattern of behavior and may be currently observed or predicted as supported by evidence-based practice.

Evidence of emotional neglect includes, but is not limited to, the following:

inappropriate expectations of the child given the child's developmental level;

failure to provide the child with appropriate support, attention and affection;

permitting the child to live under conditions, circumstances or associations;

injurious to the child's well-being including, but not limited to, the following:

substance abuse by caregiver, which adversely impacts the child emotionally;

psychiatric problem of the caregiver, which adversely impacts the child emotionally; and/or

exposure to family violence which adversely impacts the child emotionally.

Indicators may include, but are not limited to, the following:

depression;

withdrawal;

low self-esteem;

anxiety;

fear;

aggression/ passivity;

emotional instability;
sleep disturbances;
somatic complaints with no medical basis;
inappropriate behavior for age or development;
suicidal ideations or attempts;
extreme dependence;
academic regression; and/or
trust issues.

Moral Neglect

Moral Neglect: Exposing, allowing, or encouraging the child to engage in illegal or reprehensible activities by the person responsible for the child's health, welfare or care or person given access or person entrusted with the child's care.

Evidence of Moral Neglect includes but is not limited to:

stealing;
using drugs and/or alcohol; and/or
involving a child in the commission of a crime, directly or by caregiver indifference.

SUICIDE PREVENTION AND INTERVENTION

The Branford Board of Education (the “Board”) recognizes that suicide is a complex issue and that schools are not mental health treatment centers. The Branford Public Schools (the “District”) cannot be expected to thoroughly evaluate and eliminate suicidal risk. Nevertheless, school personnel may become aware of specific factual circumstances in which a student has communicated a suicidal intent or other specific circumstances in which a student is at risk for suicide. In such cases, the Board is committed to respond in a supportive manner, both aggressively and immediately, to a student who has attempted, has threatened, or who communicates that they are considering attempting suicide.

Any Board employee who has knowledge that a student has made a suicidal threat, or attempt or exhibited suicidal ideation must immediately report this information to the building principal or designee, who will, in turn, notify the appropriate Student Services staff and related school team established to address student mental health needs. The principal or designee, with administrative assistance, if necessary, will contact the student's family and appropriate resources within and outside the school system as permitted by law. The Board further directs the school staff to refer students who come to their attention as being at risk of attempting suicide for professional assessment and treatment services outside of the school. Information concerning a student's suicide attempt, threat or risk will be shared with others only as permitted by state and federal law.

In recognition of the need for youth suicide prevention procedures, the Board directs the Superintendent or designee to adopt and maintain administrative regulations addressing youth suicide prevention.

Training will be provided for teachers, other school staff, and students regarding the prevention of and response to youth suicide.

**ADMINISTRATIVE REGULATIONS
REGARDING
SUICIDE PREVENTION AND INTERVENTION**

The Branford Board of Education (the "Board") recognizes that suicide is a complex issue and that schools are not mental health treatment centers. The Branford Public Schools (the "District") cannot be expected to thoroughly evaluate and eliminate suicidal risk. Nevertheless, school personnel may become aware of specific factual circumstances in which a student has communicated a suicidal intent or other specific circumstances in which a student is at risk for suicide, and in such cases, the Board and the District are committed to respond in a supportive manner, both aggressively and immediately, to a student who has attempted, has threatened, or who communicates that they are considering attempting suicide. The following procedures shall be implemented toward this end.

Management of Suicidal Risk

- I. Any staff member who becomes aware of a student who may be at risk of suicide must immediately notify the building principal or designee. This must be done even if the student has confided in the staff person and asked that the communication be kept confidential. The principal or designee will then notify the appropriate Student Services staff and related school team established to address student mental health needs.
- II. The Student Services staff member, or when appropriate other mental health professional comparably trained in assessment of suicidal ideation, shall interview the student, consider available background information and determine whether the student is "at-risk" or in "imminent danger."
- III. If the student is assessed to be "at-risk":
 - A. The building principal or designee, in consultation with the appropriate Student Services staff member(s) or other mental health professional, shall notify the student's parent/guardian and request a meeting with them as soon as possible, preferably that same day.
 - B. When the parent/guardian arrives at school, the building principal or designee, and appropriate Student Services staff member or other mental health professional, shall meet with the parent/guardian to discuss:
 1. the seriousness of the situation;

2. the need for an immediate suicide risk evaluation at a medical or mental health facility, or other appropriate evaluation(s);
 3. the need for continued monitoring of the student at home if the student is released following the evaluation;
 4. referral to appropriate professional services outside the school system; and
 5. a request for the parent/guardian to sign a release of information form permitting communication between the school and the facility to which the student will be taken, the student's therapist and other appropriate individuals.
- C. The building principal or designee shall document in writing the course of events, including what transpired at the meeting, and the outcome.
- D. The building principal or designee may notify other staff, as necessary to promote the safety of the student and others.
- E. The building principal or designee may refer the student to the school's Child Study Team, Mental Health Team, Crisis Intervention Team, Student Assistance Team, Planning and Placement Team or other staff as appropriate for further consultation and planning.
- F. The building principal or designee shall monitor the student's progress and shall consult as necessary with family, school staff, and outside professionals, if permitted by state and federal law.
- IV. If the student is assessed to be "in imminent danger":
- A. The building principal or designee shall ensure that the student is not left alone.
 - B. The building principal or designee shall notify the parent/guardian and request that the student be picked up at school and taken to a medical or mental health professional for thorough suicidal risk evaluation.
 - C. When the parent/guardian arrives at school, the building principal or designee, and appropriate Student Services staff member or other mental health professional, shall meet with the parent/guardian to discuss:
 1. the seriousness of the situation;

2. the need for an immediate suicide risk evaluation at a medical or mental health facility, or other appropriate evaluation(s);
3. the need for continued monitoring of the student at home if the student is released following the evaluation;
4. referral to appropriate professional services outside the school system; and
5. a request for the parent/guardian to sign a release of information form permitting communication between the school and the facility to which the student will be taken, the student's therapist and other appropriate individuals.

In addition, the building principal or designee:

- a. shall document in writing the course of events, including what transpired at the meeting, and the outcome.
- b. shall inform the principal of the course of events and the outcome.
- c. may notify other staff, as necessary to protect the student and others.
- g. shall refer the student to the school's Child Study Team, Mental Health Team, Crisis Intervention Team, Student Assistance Team, Planning and Placement Team or other staff as appropriate for further consultation and planning.

- D. In instances where the parent/guardian is unable to come to school after being notified that their child has been identified as “in imminent danger” and the student must be picked up from school and taken for a thorough suicidal risk evaluation, the building principal or designee shall notify the parent/guardian of the District’s intent to and arrange transport of the student to an appropriate evaluation/treatment site by means of emergency vehicle (e.g., ambulance or police cruiser). The building principal or designee shall arrange for an emergency vehicle to transport the student to the hospital or an appropriate mental health facility; shall inform hospital/facility staff of known information pertaining to the situation; and shall plan follow-up in relation to hospital staff or mental health facility staff decisions as to how to proceed.

The principal or designee shall document in writing the course of events and the outcome.
- F. When a student assessed to have been "in imminent danger" returns to the school, the building principal or designee or the appropriate school-based team (if such referral has been made) shall coordinate consultation with outside professionals, supportive services in school, and changes in the instructional program, when necessary and as permitted by state and federal law.
- V. When addressing students who may be "at risk" or "in imminent danger" of suicide, the Designated Staff Member shall consider, in light of the particular circumstances, whether a report to the Department of Children and Families is necessary and/or appropriate in accordance with statutory mandated reporting obligations, Board policy, and/or applicable law.

Suicide Education/Prevention - Students and Staff

- I. As part of the District's Health Education Curriculum and Developmental Guidance Curriculum, students will be educated regarding suicide risk factors and danger signals, and how they might appropriately respond if confronted with suicidal behavior, verbalizations, or thoughts.

- II. Annually, in-service training for school staff will be held in each school building to discuss suicide risk factors, danger signals, and the procedures outlined in these regulations.

Re:
Educator Diversity Plan

Public Act No. 23-167, Sections 9 and 10, require Connecticut Boards of Education to develop a written plan for minority educator recruitment in order to reduce racial, ethnic and economic isolation and provide students with opportunities to interact with teachers from other racial, ethnic, and economic backgrounds.

The new law changes the plan's name to the *Increasing Educator Diversity* plan. Boards of education must submit their plans to CSDE for review and approval.

Should the plan not meet CSDE requirements, Boards of Education must submit their revised plans to CSDE no later than May 15, 2024.

Plans must include goals in the areas of recruitment, hiring and selection, and supporting and retaining educators. Plans are developed by a team who must articulate a vision and theory of action as overarching guidance for plan development.

Vision: Increase the hiring and retention of teachers of diverse backgrounds and identities in the Branford Public Schools.

Theory of Action: If the Branford Public Schools implements strategies to successfully recruit and retain a diverse teacher workforce using research-based, data-driven strategies, then we will create a community more representative of our students, community values and the world.

Goal I: Recruit a diverse educator workforce through strategic partnerships, building internal capacity and creating representative recruitment and communication materials.

Goal II: Onboard highly-qualified teacher candidates who represent the diversity of our student population.

Goal III: Retain a diverse workforce and foster an inclusive work environment where all employees feel valued, respected, and have equal opportunities for growth and advancement.

Starting with the 2024-2025 school year, Boards of Education must implement their approved plans and post them to their websites. We ask for the Boards approval of the goals as indicated above. The complete plan is linked [here](#) should you like to review further.

PROJECT GRADUATION

"Red & White . . . up all night"

A Substance Free Celebration

Branford High School
185 East Main Street • Branford, Connecticut 06405

Dear Branford Board of Education:

Branford High School will be honoring the Class of 2024 with our annual **PROJECT GRADUATION CELEBRATION**. We are once again moving our event offsite to the Sports Center of Connecticut in Shelton. Last year's event was well received by students, participation increased, and it was significantly easier to manage since parent volunteerism has decreased over the years. We remain committed to organizing a safe and special event.

The Town of Branford is very proud of the Class of 2024 and everything they have overcome during their high school years. They were freshman when the pandemic hit. Students have volunteered endless hours of their time with the Branford Festival, the Branford Road Race, Habitat for Humanity, the Food Council, the Blackstone Library, local churches, and many other charitable organizations throughout New Haven County. Our senior students are being welcomed and accepted at the finest of colleges, universities and technical schools throughout the United States. We owe them the recognition they deserve for all their hard work while attending BHS. We are confident they will continue to represent the Town of Branford with honor.

PROJECT GRADUATION is an extraordinary, substance-free event held on the night of graduation. We intend to make it a memorable experience that is fun-filled and safe. This celebration, now in its 29th year, offers our students a memorable event which includes all night entertainment, music, interactive games, non-stop food and prizes for each attending senior. If not for the continued support of volunteers, organizations and businesses this outstanding event would not be possible. We are asking The Board of Education for your financial support to help sponsor such an important and well-deserved event.

The cost to support each Senior at Project Graduation has historically been about \$100. However, prices remain higher than years past and we have added a transportation cost for busses to bring students safely back and forth from the event. The class of 2024 is a big class with a total of 214 students; therefore, we are asking that you contribute an equal amount as last year of \$2,500. We are confident that you will support us again this year. We all share in the responsibility of keeping our graduating class safe and secure on this memorable night. All of us at **PROJECT GRADUATION** thank you for your consideration and support of this annual "*BHS Tradition*".

Sincerely,

Lauren Loomis

Electronic messaging systems include mobile, chat, and instant message; cloud collaboration platforms, including internal chat, peer-to-peer messaging systems, and draft email message transfer; and products that have the ability to create duration-based or subjective removal of content, such as Snapchat, and security focused platforms, such as Signal. The Board's computers, computer networks, electronic devices, Internet access, and electronic messaging systems are referred to collectively as "the computer systems" and are provided in order to enhance both the educational opportunities for our students and the business operations of the Branford Public Schools (the "District").

These computer systems are business and educational tools. As such, they are made available to Board employees for business and education-related uses. The Administration shall develop regulations setting forth procedures to be used by the Administration in an effort to ensure that such computer systems are used for appropriate business and education-related purposes.

In accordance with applicable laws and the Administrative Regulations associated with this policy, the system administrator and others managing the computer systems may access electronic messaging systems (including email) or monitor activity on the computer system or electronic devices accessing the computer systems at any time and for any reason or no reason. Typical examples include when there is reason to suspect inappropriate conduct or there is a problem with the computer systems needing correction. Further, the system administrator and others managing the computer systems can access or monitor activity on the systems despite the use of passwords by individual users, and can bypass such passwords. In addition, review of electronic messaging systems (including email), messages or information stored on the computer systems, which can be forensically retrieved, includes those messages and/or

electronic data sent, posted and/or retrieved using social networking sites, including but not limited to, Twitter/X, Facebook, LinkedIn, Instagram, YouTube and TikTok.

Incidental personal use of the computer systems may be permitted solely for the purpose of e-mail transmissions and access to the Internet on a limited, occasional basis. Such incidental personal use of the computer systems, however, is subject to all rules, including monitoring of all such use, as the Superintendent may establish through regulation. Moreover, any such incidental personal use shall not interfere in any manner with work responsibilities.

Users should not have any expectation of personal privacy in the use of the computer system or other electronic devices that access the computer system. Use of the computer system represents an employee's acknowledgement that the employee has read and understands this policy and any applicable regulations in their entirety, including the provisions regarding monitoring and review of computer activity.

ADMINISTRATIVE REGULATIONS REGARDING EMPLOYEE USE OF THE DISTRICT'S COMPUTER SYSTEMS AND ELECTRONIC COMMUNICATIONS

Introduction

Computers, computer networks, electronic devices, Internet access, and electronic messaging systems are effective and important technological resources. The Board of Education (“the Board”) has installed computers and a computer network(s), including Internet access and electronic messaging systems, on Board premises and may provide electronic devices that can access the network(s) and/or have the ability to send and receive messages with an operating system or network communication framework. Devices include, but are not limited to, personal computing devices, cellular phones, Smartphones, network access devices, radios, personal cassette players, CD players, tablets, walkie-talkies, personal gaming systems, Bluetooth speakers, personal data assistants and other electronic signaling devices. Electronic messaging systems include mobile, chat, and instant message; cloud collaboration platforms, including internal chat, peer-to-peer messaging systems, and draft email message transfer; and products that have the ability to create duration-based or subjective removal of content, such as Snapchat, and security focused platforms, such as Signal. The Board’s computers, computer networks, electronic devices, Internet access, and electronic messaging systems are referred to collectively as “the computer systems” and are provided in order to enhance the educational and business operations of the Branford Public Schools (the “District”). In these regulations, the computers, computer network, electronic devices, Internet access and e-mail system are referred to collectively as "the computer systems."

These computer systems are business and educational tools. As such, they are being made available to employees of the District for District-related educational and business purposes. *All users of the computer systems must restrict themselves to appropriate District-related educational and business purposes.* Incidental personal use of the computer systems may be permitted solely for the purpose of e-mail transmissions and similar communications, including access to the Internet on a limited, occasional basis. Such incidental personal use of the computer systems is subject to all rules, including monitoring of all such use, set out in these regulations. Moreover, any such incidental personal use shall not interfere in any manner with work responsibilities.

These computer systems are expensive to install, own and maintain. Unfortunately, these computer systems can be misused in a variety of ways, some of which are innocent and others deliberate. Therefore, in order to maximize the benefits of these technologies to the district, our employees and all our students, this regulation shall govern *all* use of these computer systems.

Monitoring

It is important for all users of these computer systems to understand that the Board, as the owner of the computer systems, reserves the right to monitor the use of the computer systems to ensure that they are being used in accordance with these regulations. The District intends to monitor in a limited fashion, but will do so as needed to ensure that the systems are being used appropriately for District-related educational and business purposes and to maximize utilization of the systems for such business and educational purposes. The Superintendent reserves the right to eliminate personal use of the District's computer systems by any or all employees at any time.

The system administrator and others managing the computer systems may access electronic messaging systems (including email) or monitor activity on the computer system or electronic devices accessing the computer systems at any time and for any reason or no reason. Typical examples include when there is reason to suspect inappropriate conduct or there is a problem with the computer systems needing correction. Further, the system administrator and others managing the computer systems can access or monitor activity on the systems despite the use of passwords by individual users, and can bypass such passwords. In addition, review of emails, messages or information stored on the computer systems, which can be forensically retrieved, includes those messages and/or electronic data sent, posted and/or retrieved using social networking sites, including, but not limited to, Twitter/X, Facebook, LinkedIn, Instagram, YouTube, and TikTok.

Notwithstanding the above and in accordance with state law, the District may not: (1) request or require that an employee provide the District with a username and password, password or any other authentication means for accessing a personal online account; (2) request or require that an employee authenticate or access a personal online account in the presence of a District representative; or (3) require that an employee invite a supervisor employed by the District or accept an invitation from a supervisor employed by the District to join a group affiliated with any personal online account of the employee. However, the District may request or require that an employee provide the District with a username and password, password or any other authentication means for accessing (1) any account or service provided by the District or by virtue of the employee's employment relationship with the Board or that the employee uses for the Board's business purposes, or (2) any electronic communications device supplied or paid for, in whole or in part, by the Board.

In accordance with applicable law, the District maintains the right to require an employee to allow the District to access the employee's personal online account, without disclosing the username and password, password or other authentication means for accessing such personal online account, for the purpose of:

- (A) Conducting an investigation for the purpose of ensuring compliance with applicable state or federal laws, regulatory requirements or prohibitions against work-related employee misconduct based on the receipt of specific information about activity on an employee's personal online account; or
- (B) Conducting an investigation based on the receipt of specific information about an employee's unauthorized transfer of the Board's proprietary information, confidential information or financial data to or from a personal online account operated by an employee or other source.

For purposes of these Administrative Regulations, "personal online account" means any online account that is used by an employee exclusively for personal purposes and unrelated to any business purpose of the Board, including, but not limited to, electronic mail, social media and retail-based Internet web sites. "Personal online account" does not include any account created, maintained, used or accessed by an employee for a business purpose of the Board.

Why Monitor?

The computer systems are expensive for the Board to install, operate and maintain. For that reason alone it is necessary to prevent misuse of the computer systems. However, there are other equally important reasons why the Board intends to monitor the use of these computer systems, reasons that support its efforts to maintain a comfortable and pleasant work environment for all employees.

These computer systems can be used for improper, and even illegal, purposes. Experience by other operators of such computer systems has shown that they can be used for such wrongful purposes as sexual harassment, intimidation of co-workers, threatening of co-workers, breaches of confidentiality, copyright infringement and the like.

Monitoring will also allow the District to continually reassess the utility of the computer systems, and whenever appropriate, make such changes to the computer systems as it deems fit. Thus, the District monitoring should serve to increase the value of the system to the District on an ongoing basis.

Privacy Issues

Employees must understand that the District has reserved the right to conduct monitoring of these computer systems and can do so *despite* the assignment to individual employees of passwords for system security. Any password systems implemented by the District are designed solely to provide system security from unauthorized users, not to provide privacy to the individual system user.

The system's security aspects, message delete function and personal passwords can be bypassed for monitoring purposes.

Therefore, employees must be aware that they should not have any expectation of personal privacy in the use of these computer systems. This provision applies to any and all uses of the District's computer systems and electronic devices that access same, including any incidental personal use permitted in accordance with these regulations.

Use of the computer system represents an employee's acknowledgement that the employee has read and understands these regulations and any applicable policy in their entirety, including the provisions regarding monitoring and review of computer activity.

Prohibited Uses

Inappropriate use of District computer systems is expressly prohibited, including, but not limited to, the following:

- ◆ Sending any form of solicitation not directly related to the business of the Board;
- ◆ Sending any form of slanderous, harassing, threatening, or intimidating message, at any time, to any person (such communications *may* also be a *crime*);
- ◆ Gaining or seeking to gain unauthorized access to computer systems;
- ◆ Downloading or modifying computer software of the District in violation of the District's licensure agreement(s) and/or without authorization from supervisory personnel;
- ◆ Sending any message that breaches the Board's confidentiality requirements, including the confidentiality rights of students;
- ◆ Sending any copyrighted material over the system;
- ◆ Sending messages for any purpose prohibited by law;
- ◆ Transmission or receipt of inappropriate e-mail communications or accessing inappropriate information on the Internet, including vulgar, lewd or obscene words or pictures;
- ◆ Using computer systems for any purposes, or in any manner, other than those permitted under these regulations;

- ◆ Using social networking sites such as Facebook, Twitter/X, LinkedIn, Instagram, YouTube, and TikTok in a manner that disrupts or undermines the effective operation of the District; is used to engage in harassing, defamatory, obscene, abusive, discriminatory or threatening or similarly inappropriate communications; creates a hostile work environment; breaches confidentiality obligations of District employees; or violates the law, Board policies and/or other school rules and regulations.
- ◆ Using generative artificial intelligence in a manner that disrupts or undermines the effective operation of the District; is used to engage in harassing, defamatory, obscene, abusive, discriminatory or threatening or similarly inappropriate communications, creates a hostile work environment; breaches confidentiality obligations of school employees; or violates the law, Board policies and/or other school rules and regulations. For purposes of this policy, “generative artificial intelligence” refers to a technology system, including but not limited to ChatGPT, capable of learning patterns and relationships from data, enabling it to create content, including but not limited to text, images, audio, or video, when prompted by a user.

In addition, if a particular behavior or activity is generally prohibited by law and/or Board policy, use of these computer systems for the purpose of carrying out such activity and/or behavior is also prohibited.

Electronic Communications

The Board expects that all employees will comply with all applicable Board policies and standards of professional conduct when engaging in any form of electronic communication, including texting, using the District’s computer system, or through the use of any electronic messaging system or mobile device owned, leased, or used by the Board. As with any form of communication, the Board expects District personnel to exercise caution and appropriate judgment when using electronic communications with students, colleagues and other individuals in the context of fulfilling an employee’s job-related responsibilities, including when engaging in remote teaching or use of a digital teaching platform.

Disciplinary Action

Misuse of these computer systems will not be tolerated and will result in disciplinary action up to and including termination of employment. Because no two situations are identical, the Board reserves the right to determine the appropriate discipline for any particular set of circumstances.

Complaints of Problems or Misuse

Anyone who is aware of problems with or misuse of these computer systems, or has a question regarding the appropriate use of the computer systems, should report this to a District administrator, supervisor or to the Director of Technology.

Most importantly, the Board urges *any* employee who receives *any* harassing, threatening, intimidating or other improper message through the computer systems to report this immediately. It is the Board's policy that no employee should be required to tolerate such treatment, regardless of the identity of the sender of the message. *Please report these events!*

Implementation

This regulation is effective as of October 19, 2022

NOTICE REGARDING ELECTRONIC MONITORING

**[To be posted in a conspicuous place
readily available for viewing by employees]**

In accordance with the provisions of Connecticut General Statutes Section 31-48d, the Board of Education hereby gives notice to all its employees of the potential use of electronic monitoring in its workplace. While the Board may not actually engage in the use of electronic monitoring, it reserves the right to do so as the Board and/or the Administration deem appropriate in their discretion, consistent with the provisions set forth in this Notice.

“Electronic monitoring,” as defined by Connecticut General Statutes Section 31-48d, means the collection of information on the Board's premises concerning employees' activities or communications, by any means other than direct observation of the employees. Electronic monitoring includes the use of a computer, telephone, wire, radio, camera, electromagnetic, photoelectric or photo-optical systems. The law does

not cover the collection of information (A) for security purposes in any common areas of the Board's premises which are open to the public, or (B) which is prohibited under other state or federal law.

The following specific types of electronic monitoring may be used by the Board in its workplaces:

- Monitoring of electronic messaging systems (including email) and other components of the Board's computer systems, including monitoring of electronic devices such as personal computing devices, cellular phones, Smartphones, network access devices, radios, personal cassette players, CD players, tablets, walkie-talkies, personal gaming systems, Bluetooth speakers, personal data assistants, and other electronic signaling devices that access the computer systems, for compliance with the Board's policies and regulations concerning use of such systems.
- Video and/or audio surveillance within school buildings (other than in restrooms, locker rooms, lounges and other areas designed for the health or personal comfort of employees or for the safeguarding of their possessions), on school grounds and on school buses and other vehicles providing transportation to students and/or employees of the school system.
- Monitoring of employee usage of the school district's telephone systems.
- Monitoring of employees when employees are engaging in remote teaching or use of a digital teaching platform.

The law also provides that, where electronic monitoring may produce evidence of misconduct, the Board may use electronic monitoring without any prior notice when the Board has reasonable grounds to believe employees are engaged in conduct that (i) violates the law, (ii) violates the legal rights of the Board or other employees, or (iii) creates a hostile work environment.

Questions about electronic monitoring in the workplace should be directed to the Superintendent.

STUDENT DISCIPLINE

It is the policy of the Branford Board of Education (the “Board”) to create a school environment that promotes respect of self, others, and property within the Branford Public Schools (the “District”). Compliance with this policy will enhance the Board and the District’s ability to maintain discipline and reduce interference with the educational process that can result from student misconduct. Pursuant to this policy, the District shall promote the utilization of consistent discipline practices, both within and across schools in the District, while also promoting the consideration of individual circumstances arising in each student disciplinary matter. Where appropriate, the District implements strategies that teach, encourage and reinforce positive student behavior that do not require engagement with the discipline system.

The Administration and/or the Board may also consider (5) **whether the off-campus conduct involved the illegal use of drugs**.

- D. A student shall not have greater discipline, punishment, or sanction for the use, sale, or possession of cannabis on school property than a student would face for the use, sale, or possession of alcohol on school property, except as otherwise required by applicable law.

IV. Discretionary and Mandatory Expulsions

- A. An administrator responsible for a school program (“responsible administrator”) may consider recommendation of expulsion of a student in **grades three to twelve, inclusive**, in a case where the responsible administrator has reason to believe the student has engaged in conduct described at Sections II.A. or II.B., above.

- B. A responsible administrator must recommend expulsion proceedings in all cases against any student in **grades kindergarten to twelve, inclusive**, whom the District Administration has reason to believe:
1. was in **possession on school grounds, on school transportation, or at a school-sponsored activity of a deadly weapon, dangerous instrument, martial arts weapon, or firearm** as defined in 18 U.S.C. § 921 as amended from time to time; or

Gen. Stat. §§21a-277 and 21a-278. Sale or distribution of less than one (1) kilogram of cannabis is not subject to mandatory expulsion.

The terms “**dangerous instrument,**” “**deadly weapon,**” “**electronic defense weapon,**” “**firearm,**” and “**martial arts weapon,**” are defined above in Section I.

- C. In any preschool program provided by the Board or provided by a regional educational service center or a state or local charter school pursuant to an agreement with the Board, no **student enrolled in such a preschool program** shall be expelled from such preschool program, except an expulsion hearing shall be conducted by the Board in accordance with Section VIII of this policy whenever the Administration has reason to believe that that a student enrolled in such preschool program was in **possession of a firearm** as defined in 18 U.S.C. § 921, as amended from time to time, on or off school grounds, on school transportation, or at a preschool program-sponsored event. The term “**firearm**” is defined above in Section I.
- D. Upon receipt of an expulsion recommendation, the Superintendent may conduct an inquiry concerning the expulsion recommendation.

If the Superintendent or designee determines that a student should or must be expelled, the Superintendent or designee shall forward such recommendation to the Board so that the Board can consider and act upon this recommendation.

- E. In keeping with Conn. Gen. Stat. § 10-233d and the Gun-Free Schools Act, it shall be the policy of the Board to expel a student in grades kindergarten to twelve, inclusive, for one (1) full calendar year for the conduct described in Section IV.B(1), (2) and (3) of this policy and to expel a student enrolled in a preschool program for one (1) calendar year for the conduct described in Section IV.C. For any mandatory expulsion offense, the Board may modify the term of expulsion on a case-by-case basis.

V. Procedures Governing Removal from Class

- A. A student may be removed from class by a teacher or administrator if the student deliberately causes a serious disruption of the educational process. When a student is removed by a teacher, the teacher must send the student to a designated area and notify the responsible administrator or the administrator's designee at once.
- B. A student may not be removed from class more than six (6) times in one school year nor more than twice in one week unless the student is referred to the responsible administrator or the administrator's designee and granted an informal hearing at which the student should be informed of the reasons for the disciplinary action and given an opportunity to explain the situation.
- C. The parents or guardian of any minor student removed from class shall be given notice of such disciplinary action within twenty-four (24) hours of the time of the institution of such removal from class.

VI. Procedures Governing Suspension

- A. The responsible administrator or the administrator's designee on the administrative staff of the school, shall have the right to suspend a student for breach of conduct as noted in Section II of this policy for not more than ten (10) consecutive school days. In cases where suspension is contemplated, the following procedures shall be followed.
 - 1. Unless an emergency situation exists, no student shall be suspended prior to having an informal hearing before the responsible administrator or the administrator's designee at which the student is informed of the charges and given an opportunity to

respond. In the event of an emergency, the informal hearing shall be held as soon after the suspension as possible.

2. If suspended, such suspension shall be an in-school suspension, except the responsible administrator or the administrator's designee may impose an out-of-school suspension on any pupil:
 - a. in grades three to twelve, inclusive, if, during the informal hearing, (i) the responsible administrator or the administrator's designee determines that the student poses such a danger to persons or property or such a disruption of the educational process that the student should be excluded from school during the period of suspension; or (ii) the responsible administrator or the administrator's designee determines that an out-of-school suspension is appropriate based on evidence of (A) the student's previous disciplinary problems that have led to suspensions or expulsion of such student, and (B) previous efforts by the District Administration to address the student's disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or
 - b. in grades preschool to two, inclusive, if the responsible administrator or the administrator's designee determines that an out-of-school suspension is appropriate for such students based on evidence that such student's conduct on school grounds or on school transportation is of a violent or sexual nature that endangers persons.
3. Evidence of past disciplinary problems that have led to removal from a classroom, suspension, or expulsion of a student who is the subject of an informal hearing may be received by the responsible administrator or the administrator's designee, but only considered in the determination of the length of suspensions.
4. By telephone, the responsible administrator or the administrator's designee shall make reasonable attempts to immediately notify the parent or guardian of a minor student following the suspension and to state the cause(s) leading to the suspension.
5. Whether or not telephone contact is made with the parent or guardian of such minor student, the responsible administrator or the administrator's designee shall forward a letter promptly to such parent or guardian to the last address reported on school records (or to a newer address if known by the responsible

administrator or the administrator's designee), offering the parent or guardian an opportunity for a conference to discuss same.

6. In all cases, the parent or guardian of any minor student who has been suspended shall be given notice of such suspension within twenty-four (24) hours of the time of the institution of the suspension.
7. Not later than twenty-four (24) hours after the commencement of the suspension, the responsible administrator or the administrator's designee shall also notify the Superintendent or designee of the name of the student being suspended and the reason for the suspension.
8. The student shall be allowed to complete any classwork, including examinations, without penalty, which the student missed while under suspension.
9. The Administration may, in its discretion, shorten or waive the suspension period for a student who has not previously been suspended or expelled, if the student completes an Administration-specified program and meets any other conditions required by the Administration. Such Administration-specified program shall not require the student and/or the student's parents to pay for participation in the program. The Superintendent may delegate this authority to building or program level administrators.
10. Notice of the suspension shall be recorded in the student's cumulative educational record. Such notice shall be expunged from the cumulative educational record if the student graduates from high school. In cases where the student's period of suspension is shortened or waived in accordance with Section VI.A(9), above, the Administration may choose to expunge the suspension notice from the cumulative record at the time the student completes the Administration-specified program and meets any other conditions required by the Administration. The Superintendent may delegate this authority to building or program level administrators.
11. If the student has not previously been suspended or expelled, and the Administration chooses to expunge the suspension notice from the student's cumulative record prior to graduation, the Administration may refer to the existence of the expunged disciplinary notice, notwithstanding the fact that such notice may have been expunged from the student's cumulative file, for the limited purpose of determining whether any subsequent

suspensions or expulsions by the student would constitute the student's first such offense.

12. The decision of the responsible administrator or the administrator's designee with regard to disciplinary actions up to and including suspensions shall be final.
 13. During any period of suspension served out of school, the student shall not be permitted to be on school property and shall not be permitted to attend or participate in any school-sponsored activities, unless the responsible administrator or the administrator's designee specifically authorizes the student to enter school property for a specified purpose or to participate in a particular school-sponsored activity.
- B. In cases where a student's suspension will result in the student being suspended more than ten (10) times or for a total of fifty (50) days in a school year, whichever results in fewer days of exclusion, the student shall, prior to the pending suspension, be granted a formal hearing before the Board. The responsible administrator or the administrator's designee shall report the student to the Superintendent or designee and request a formal Board hearing. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

VII. Procedures Governing In-School Suspension

- A. The responsible administrator or the administrator's designee may impose in-school suspension in cases where a student's conduct endangers persons or property, violates school policy or seriously disrupts the educational process as determined by the responsible administrator or the administrator's designee.
- B. In-school suspension may not be imposed on a student without an informal hearing by the responsible administrator or the administrator's designee.
- C. In-school suspension may be served in the school or program that the student regularly attends or in any other school building within the jurisdiction of the Board.
- D. No student shall be placed on in-school suspension more than fifteen (15) times or for a total of fifty (50) days in one school year, whichever results in fewer days of exclusion.
- E. The parents or guardian of any minor student placed on in-school suspension shall be given notice of such suspension within twenty-four

(24) hours of the time of the institution of the period of the in-school suspension.

VIII. Procedures Governing Expulsion Hearing

A. *Emergency Exception:*

Except in an emergency situation, the Board shall, prior to expelling any student, conduct a hearing to be governed by the procedures outlined herein and consistent with the requirements of Conn. Gen. Stat. § 10-233d or Conn. Gen. Stat. § 10-233l, if applicable, as well as the applicable provisions of the Uniform Administrative Procedures Act, Conn. Gen. Stat. §§ 4-176e to 4-180a, and § 4-181a. Whenever an emergency exists, the hearing provided for herein shall be held as soon as possible after the expulsion.

B. *Hearing Panel:*

1. Expulsion hearings conducted by the Board will be heard by any three or more Board members. A decision to expel a student must be supported by a majority of the Board members present, provided that no less than three (3) affirmative votes to expel are cast.
2. Alternatively, the Board may appoint an impartial hearing board composed of one (1) or more persons to hear and decide the expulsion matter, provided that no member of the Board may serve on such panel.

C. *Hearing Notice and Rights of the Student and Parent(s)/Guardian(s):*

1. Written notice of the expulsion hearing must be given to the student, and, if the student is a minor, to the student's parent(s) or guardian(s) at least five (5) business days before such hearing.
2. A copy of this Board policy on student discipline shall also be given to the student, and if the student is a minor, to the student's parent(s) or guardian(s), at the time the notice is sent that an expulsion hearing will be convened.
3. The written notice of the expulsion hearing shall inform the student of the following:
 - a. The date, time, place and nature of the hearing, including if the hearing will be held virtually, via video conference.

- b. The legal authority and jurisdiction under which the hearing is to be held, including a reference to the particular sections of the legal statutes involved.
- c. A short, plain description of the conduct alleged by the Superintendent or designee.
- d. The student may present as evidence relevant testimony and documents concerning the conduct alleged and the appropriate length and conditions of expulsion; and that the expulsion hearing may be the student's sole opportunity to present such evidence.
- e. The student may cross-examine witnesses called by the Superintendent or designee.
- f. The student may be represented by an attorney or other advocate of the student's choice at the student's expense or at the expense of the student's parent(s) or guardian(s).
- g. A student is entitled to the services of a translator or interpreter, to be provided by the Board, whenever the student or the student's parent(s) or guardian(s) requires the services of an interpreter because they do not speak the English language or are disabled.
- h. The conditions under which the Board is not legally required to give the student an alternative educational opportunity (if applicable).
- i. Information concerning the parent's(s') or guardian's(s') and the student's legal rights and about free or reduced-rate legal services and how to access such services.
- j. The parent(s) or guardian(s) of the student have the right to have the expulsion hearing postponed for up to one week to allow time to obtain representation, except that if an emergency exists, such hearing shall be held as soon after the expulsion as possible.

D. *Hearing Procedures:*

1. The hearing will be conducted by the Presiding Officer, who will call the meeting to order, introduce the parties, Board members

and others participating in the hearing (if applicable), briefly explain the hearing procedures, and swear in any witnesses called by the Superintendent or designee or the student. If an impartial board of more than one person has been appointed, the impartial board shall appoint a Presiding Officer

2. The hearing will be conducted in executive session. A verbatim record of the hearing will be made, either by tape or digital recording or by a stenographer. A record of the hearing will be maintained, including the verbatim record, all written notices and documents relating to the case and all evidence received or considered at hearing.
3. The Superintendent or designee shall bear the burden of production to come forward with evidence to support its case and shall bear the burden of persuasion. The standard of proof shall be a preponderance of the evidence.
4. Formal rules of evidence will not be followed. The Board (or the impartial board) has the right to accept hearsay and other evidence if it deems that evidence relevant or material to its determination. The Presiding Officer will rule on testimony or evidence as to it being immaterial, irrelevant and/or any other objections to its submission.
5. The hearing will be conducted in two (2) parts. In the first part of the hearing, the Board (or the impartial board) will receive and consider evidence regarding the conduct alleged by the Administration.
6. In the first part of the hearing, the charges will be introduced into the record by the Superintendent or designee.
7. Each witness for the Superintendent or designee will be called and sworn. After a witness has finished testifying, the witness will be subject to cross-examination by the opposite party or the witness' legal counsel, by the Presiding Officer and by Board members (or the impartial board).
8. The student shall not be compelled to testify at the hearing.
9. After the Superintendent or designee has presented the Administration's case, the student will be asked if the student has any witnesses or evidence to present concerning the charges. If so, the witnesses will be sworn, will testify, and will be subject to cross examination and to questioning by the Superintendent or

designee, the Presiding Officer and/or by the Board (or the impartial board). The student may also choose to make a statement at this time. If the student chooses to make a statement, the student will be sworn and subject to cross examination and questioning by the Superintendent or designee, the Presiding Officer and/or by the Board (or the impartial board). Concluding statements will be made by the Superintendent or designee and then by the student and/or the student's representative.

10. In cases where the student has denied the allegation, the Board (or the impartial board) must determine whether the student committed the offense(s) as charged by the Superintendent or designee.
11. If the Board (or the impartial board) determines that the student has committed the conduct as alleged, then the Board (or the impartial board) shall proceed with the second portion of the hearing, during which the Board (or the impartial board) will receive and consider relevant evidence regarding the length and conditions of expulsion.
12. When considering the length and conditions of expulsion, the Board (or the impartial board) may review the student's attendance, academic and past disciplinary records. The Board (or the impartial board) may not review notices of prior expulsions or suspensions which have been expunged from the student's cumulative record, except as so provided in Section VI.A (9), (10), (11), above, and Section X, below. The Board (or the impartial board) may ask the Superintendent or designee for a recommendation as to the discipline to be imposed.
13. Evidence of past disciplinary problems that have led to removal from a classroom, suspension or expulsion of a student being considered for expulsion may be considered only during the second portion of the hearing, during which the Board (or the impartial board) is considering length of expulsion and nature of alternative educational opportunity to be offered.
14. Where administrators presented the case in support of the charges against the student, neither such administrative staff nor the Superintendent or designee shall be present during the deliberations of the Board (or the impartial board) either on questions of evidence or on the final discipline to be imposed. The Superintendent or designee may, after reviewing the incident with administrators, and reviewing the student's records, make a

recommendation to the Board (or the impartial board) as to the appropriate discipline to be applied.

15. The Board (or the impartial board) shall make findings as to the truth of the charges, if the student has denied them; and, in all cases, the disciplinary action, if any, to be imposed. While the hearing itself is conducted in executive session, the vote regarding expulsion must be made in open session and in a manner that preserves the confidentiality of the student's name and other personally identifiable information.
16. Except for a student who has been expelled based on possession of a firearm or deadly weapon as described in subsection IV.B(1) and (2) above, the Board (or the impartial board) may, in its discretion, shorten or waive the expulsion period for a student who has not previously been suspended or expelled, if the student completes a Board-specified program and meets any other conditions required by the Board (or the impartial board). The Board-specified program shall not require the student and/or the student's parents to pay for participation in the program.
17. The Board (or the impartial board) shall report its final decision in writing to the student, or if such student is a minor, also to the parent(s) or guardian(s), stating the reasons on which the decision is based, and the disciplinary action to be imposed. Said decision shall be based solely on evidence presented at the hearing. The parents or guardian or any minor student who has been expelled shall be given notice of such disciplinary action within twenty-four (24) hours of the time of the institution of the period of the expulsion.
18. The hearing may be conducted virtually, via video conference, at the direction of the Board (or the impartial board), in the event school buildings are closed to students or individuals are provided limited access to school buildings due to a serious health or other emergency. Any virtual hearing must provide the student the due process rights identified in this Subsection D.

E. ***Presence on School Grounds, on School Transportation, and Participation in School-Sponsored Activities During Expulsion:***

During the period of expulsion, the student shall not be permitted to be on school property or on school transportation, and shall not be permitted to attend or participate in any school-sponsored activities, except for the student's participation in any alternative educational opportunity provided by the District in accordance with this policy,

unless the Superintendent or designee specifically provides written permission for the student to enter school property or school transportation for a specified purpose or to participate in a particular school-sponsored activity.

F. ***Stipulated Agreements:***

In lieu of the procedures used in this Section, the Superintendent or designee and the parent(s) or legal guardian(s) of a student facing expulsion may choose to enter into a Joint Stipulation of the Facts and a Joint Recommendation to the Board concerning the length and conditions of expulsion. Such Joint Stipulation and Recommendation shall include language indicating that the parent(s) or legal guardian(s) understand their right to have an expulsion hearing held pursuant to these procedures, and language indicating that the Board, in its discretion, has the right to accept or reject the Joint Stipulation of Facts and Recommendation. If the Board (or the impartial board) rejects either the Joint Stipulation of Facts or the Recommendation, an expulsion hearing shall be held pursuant to the procedures outlined herein. If the student is eighteen years of age or older, the student shall have the authority to enter into a Joint Stipulation and Recommendation on the student's own behalf.

If the parties agree on the facts, but not on the disciplinary recommendation, the Superintendent or designee and the parents (or legal guardians) of a student facing expulsion may also choose to enter into a Joint Stipulation of the Facts and submit only the Stipulation of the Facts to the Board (or the impartial board) in lieu of holding the first part of the hearing, as described above. Such Joint Stipulation shall include language indicating that the parents and/or student over the age of 18 understand their right to have a hearing to determine whether the student engaged in the alleged misconduct and that the Board, in its discretion, has the right to accept or reject the Joint Stipulation of Facts. If the Board (or the impartial board) rejects the Joint Stipulation of Facts, a full expulsion hearing shall be held pursuant to the procedures outlined herein.

IX. **Alternative Educational Opportunities for Expelled Students**

A. ***Students under sixteen (16) years of age:***

Whenever the Board expels a student under sixteen (16) years of age, it shall offer any such student an alternative educational opportunity.

B. ***Students sixteen (16) to eighteen (18) years of age:***

1. The Board shall provide an alternative educational opportunity to a sixteen (16) to eighteen (18) year-old student expelled for the first time if the student requests it and if the student agrees to the conditions set by the Board(or the impartial board). Such alternative educational opportunity may include, but shall not be limited to, the placement of a student who is at least seventeen years of age in an adult education program. Any student participating in an adult education program during a period of expulsion shall not be required to withdraw from school as a condition to participation in the adult education program.
2. The Board is not required to offer an alternative educational opportunity to any student between the ages of sixteen (16) and eighteen (18) who is expelled for a second, or subsequent, time.
3. The Board shall count the expulsion of a student when the student was under sixteen (16) years of age for purposes of determining whether an alternative educational opportunity is required for such student when the student is between the ages of sixteen and eighteen.

C. *Students eighteen (18) years of age or older:*

The Board is not required to offer an alternative educational opportunity to expelled students eighteen (18) years of age or older.

D. Content of Alternative Educational Opportunity

1. For the purposes of Section IX, and subject to Subsection IX.E, below, any alternative educational opportunity to which an expelled student is statutorily entitled shall be (1) alternative education, as defined by Conn. Gen. Stat. § 10-74j and in accordance with the *Standards for Educational Opportunities for Students Who Have Been Expelled*, adopted by the Connecticut State Board of Education (“CSBE”), with an individualized learning plan, if the Board provides such alternative education, or (2) in accordance with the *Standards for Educational Opportunities for Students Who Have Been Expelled*, adopted by the CSBE.
2. The Superintendent, or designee, shall develop administrative regulations concerning alternative educational opportunities, which administrative regulations shall be in compliance with the standards adopted by the CSBE. Such administrative regulations shall include, but are not limited to, provisions to address student placement in alternative education; individualized learning plans;

monitoring of students placements and performance; and a process for transition planning.

E. ***Students identified as eligible for services under the Individuals with Disabilities Education Act (“IDEA”):***

Notwithstanding Subsections IX.A. through D. above, if the Board expels a student who has been identified as eligible for services under the Individuals with Disabilities Education Act (“IDEA”), it shall offer an alternative educational opportunity to such student in accordance with the requirements of IDEA, as it may be amended from time to time, and in accordance with the *Standards for Educational Opportunities for Students Who Have Been Expelled*, adopted by the CSBE.

F. ***Students for whom an alternative educational opportunity is not required:***

The Board may offer an alternative educational opportunity to a student for whom such alternative educational opportunity is not required by law or as described in this policy. In such cases, the Board, or if delegated by the Board, the Administration, shall determine the components, including nature, frequency and duration of such services, of any such alternative educational opportunity.

X. **Notice of Student Expulsion on Cumulative Record**

Notice of expulsion and the conduct for which the student was expelled shall be included on the student’s cumulative educational record. Such notice, except for notice of an expulsion of a student in grades nine through twelve, inclusive, based upon possession of a firearm or deadly weapon, shall be expunged from the cumulative educational record by the District if the student graduates from high school.

In cases where the student’s period of expulsion is shortened or waived in accordance with Section VIII.D(16), above, the Board may choose to expunge the expulsion notice from the cumulative record at the time the student completes the Board-specified program and meets any other conditions required by the Board. Except as may be specified by the Board in an expulsion hearing decision, the Board delegates the authority to make decisions pertaining to expungement to the Superintendent.

If a student’s period of expulsion was not shortened or waived, the Board may choose to expunge the expulsion notice from the student’s cumulative record prior to graduation if such student has demonstrated to the Board that the student’s conduct and behavior in the years following such expulsion warrants an expungement. In deciding whether to expunge the expulsion notice, the

Board may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of the student. Except as may be specified by the Board in an expulsion hearing decision, the Board delegates the authority to make decisions pertaining to expungement to the Superintendent.

If the student has not previously been suspended or expelled, and the Administration chooses to expunge the expulsion notice from the student's cumulative record prior to graduation, the Administration may refer to the existence of the expunged notice, notwithstanding the fact that such notice may have been expunged from the student's cumulative file, for the limited purpose of determining whether any subsequent suspension or expulsion by the student would constitute the student's first such offense.

XI. Change of Residence During Expulsion Proceedings

A. *Student moving into the District:*

1. If a student enrolls in the District while an expulsion hearing is pending in another public school district, such student shall not be excluded from school pending completion of the expulsion hearing unless an emergency exists, as defined above. The Board shall retain the authority to suspend the student or to conduct its own expulsion hearing. The procedures outlined above in Section VIII are consistent with the requirements of Conn. Gen. Stat. § 10-233d or Conn. Gen. Stat. § 10-2331, if applicable, as well as the applicable provisions of the Uniform Administrative Procedures Act, Conn. Gen. Stat. §§ 4-176e to 4-180a, and § 4-181a shall be utilized for any hearing conducted under this section.
2. Where a student enrolls in the District during the period of expulsion from another public school district, the Board may adopt the decision of the student expulsion hearing conducted by such other school district. The student shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with statutory requirements. The Board (or the impartial board) shall make its determination pertaining to expulsion based upon a hearing held by the Board (or the impartial board), which hearing shall be limited to a determination of whether the conduct which was the basis of the previous public school district's expulsion would also warrant expulsion by the Board. The procedures outlined above in Section VIII are consistent with the requirements of Conn. Gen. Stat. § 10-233d or Conn. Gen. Stat. § 10-2331, if applicable, as well as the applicable provisions of

the Uniform Administrative Procedures Act, Conn. Gen. Stat. §§ 4-176e to 4-180a, and § 4-181a shall be utilized for any hearing conducted under this section.

B. *Student moving out of the District:*

Where a student withdraws from school after having been notified that an expulsion hearing is pending, but before a decision has been rendered by the Board, the notice of the pending expulsion hearing shall be included on the student's cumulative record and the Board shall complete the expulsion hearing and render a decision. If the Board subsequently renders a decision to expel the student, a notice of the expulsion shall be included on the student's cumulative record.

XII. Procedures Governing Suspension and Expulsion of Students Identified as Eligible for Services under the Individuals with Disabilities Education Act ("IDEA")

A. *Suspension of IDEA students:*

Notwithstanding the foregoing, if the a responsible administrator suspends a student identified as eligible for services under the IDEA (an "IDEA student") who has violated any rule or code of conduct of the District that applies to all students, the following procedures shall apply:

1. The responsible administrator shall make reasonable attempts to immediately notify the parents of the student of the decision to suspend on the date on which the decision to suspend was made, and a copy of the special education procedural safeguards must either be hand-delivered or sent by mail to the parents on the date that the decision to suspend was made.
2. During the period of suspension, the District is not required to provide any educational services to the IDEA student beyond that which is provided to all students suspended by the District.

B. *Expulsion and Suspensions that Constitute Changes in Placement for IDEA students:*

Notwithstanding any provision to the contrary, if the Administration recommends for expulsion an IDEA student who has violated any rule or code of conduct of the District that applies to all students, the procedures described in this section shall apply. The procedures described in this section shall also apply for students whom the Administration has suspended in a manner that is considered under the IDEA, as it may be amended from time to time, to be a change in educational placement:

1. Upon the decision by the Administration to recommend expulsion or impose a suspension that would constitute a change in educational placement, the Administration shall promptly notify the parent(s)/guardian(s) of the student of the recommendation of expulsion or the suspension that would constitute a change in educational placement, and provide the parents(s)/guardian(s) a copy of the special education procedural safeguards either by hand-delivery or by mail (unless other means of transmission have been arranged).
2. The District shall immediately convene the student's planning and placement team ("PPT"), but in no case later than ten (10) school days after the recommendation for expulsion or the suspension that constitutes a change in placement was made. The student's PPT shall consider the relationship between the student's disability and the behavior that led to the recommendation for expulsion or the suspension which constitutes a change in placement, in order to determine whether the student's behavior was a manifestation of the student's disability.
3. If the student's PPT finds that the behavior was a manifestation of the student's disability, the Administration shall not proceed with the recommendation for expulsion or the suspension that constitutes a change in placement.
4. If the student's PPT finds that the behavior was not a manifestation of the student's disability, the Administration may proceed with the recommended expulsion or suspension that constitutes a change in placement.
5. During any period of expulsion, or suspension of greater than ten (10) days per school year, the Administration shall provide the student with an alternative education program in accordance with the provisions of the IDEA.
6. When determining whether to recommend an expulsion or a suspension that constitutes a change in placement, the responsible administrator (or designee) should consider the nature of the misconduct and any relevant educational records of the student.

C. *Removal of Special Education Students for Certain Offenses:*

1. A responsible administrator may remove a student eligible for special education under the IDEA to an appropriate interim

alternative educational setting for not more than forty-five (45) school days if the student:

- a. Was in possession of a dangerous weapon, as defined in 18 U.S.C. 930(g)(2), as amended from time to time, on school grounds, on school transportation, or at a school-sponsored activity, or
 - b. Knowingly possessed or used illegal drugs or sold or solicited the sale of a controlled substance while at school, on school transportation, or at a school-sponsored activity; or
 - c. Has inflicted serious bodily injury upon another person while at school, on school premises, on school transportation, or at a school function.
2. The following definitions shall be used for this subsection XII.C.:
- a. **Dangerous weapon** means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2.5 inches in length.
 - b. **Controlled substance** means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act, 21 U.S.C. 812(c).
 - c. **Illegal drug** means a controlled substance but does not include a substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or under any other provision of federal law.
 - d. **Serious bodily injury** means a bodily injury which involves: (A) a substantial risk of death; (B) extreme physical pain; (C) protracted and obvious disfigurement; or (D) protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

XIII. Procedures Governing Expulsions for Students Identified as Eligible under Section 504 of the Rehabilitation Act of 1973 (“Section 504”)

- A. Except as provided in subsection B below, notwithstanding any provision to the contrary, if the Administration recommends for expulsion a student identified as eligible for educational accommodations under Section 504 who has violated any rule or code of conduct of the District that applies to all students, the following procedures shall apply:
1. The parents of the student must be notified of the decision to recommend the student for expulsion.
 2. The District shall immediately convene the student’s Section 504 team (“504 team”) for the purpose of reviewing the relationship between the student’s disability and the behavior that led to the recommendation for expulsion. The 504 team will determine whether the student’s behavior was a manifestation of the student’s disability.
 3. If the 504 team finds that the behavior was a manifestation of the student’s disability, the Administration shall not proceed with the recommended expulsion.
 4. If the 504 team finds that the behavior was not a manifestation of the student’s disability, the Administration may proceed with the recommended expulsion.
- B. The Board may take disciplinary action for violations pertaining to the use or possession of illegal drugs or alcohol against any student with a disability who currently is engaging in the illegal use of drugs or alcohol to the same extent that such disciplinary action is taken against nondisabled students. Thus, when a student with a disability is recommended for expulsion based solely on the illegal use or possession of drugs or alcohol, the 504 team *shall not be required to meet* to review the relationship between the student’s disability and the behavior that led to the recommendation for expulsion.

XIV. Procedures Governing Expulsions for Students Placed in a Juvenile Detention Center

- A. Any student who commits an expellable offense and is subsequently placed in a juvenile detention center or any other residential placement for such offense may be expelled by the Board in accordance with the provisions of this section. The period of expulsion shall run concurrently with the period of placement in a juvenile detention center or other residential placement.

- B. If a student who committed an expellable offense seeks to return to the District after participating in a diversionary program or having been placed in a juvenile detention center or any other residential placement and such student has not been expelled by the Board for such offense under subdivision (A) of this subsection, the Board shall allow such student to return and may not expel the student for additional time for such offense.

XV. Early Readmission to School

An expelled student may apply for early readmission to school. The Board delegates the authority to make decisions on readmission requests to the Superintendent. Students desiring readmission to school shall direct such readmission requests to the Superintendent. The Superintendent has the discretion to approve or deny such readmission requests, and may condition readmission on specified criteria.

XVI. Dissemination of Policy

The Board shall, at the beginning of each school year and at such other times as it may deem appropriate, provide for an effective means of informing all students, parent(s) and/or guardian(s) of this policy.

XVII. Compliance with Documentation and Reporting Requirements

- A. The District shall include on all disciplinary reports the individual student's state-assigned student identifier (SASID).
- B. The District shall report all suspensions and expulsions to the State Department of Education.
- C. If the Board expels a student for sale or distribution of a controlled substance, as defined in Conn. Gen. Stat. § 21a-240(9), whose manufacture, distribution, sale, prescription, dispensing, transporting or possessing with the intent to sell or dispense, offering, or administration is the subject to criminal penalties under Conn. Gen. Stat. §§ 21a-277 and 21a-278, the District shall refer such student to an appropriate state or local agency for rehabilitation, intervention or job training and inform the agency of its action.
- D. If the Board expels a student for possession of a firearm, as defined in 18 U.S.C. § 921, or deadly weapon, dangerous instrument or martial arts weapon, as defined in Conn. Gen. Stat. § 53a-3, the District shall report the violation to the local police.

ADMINISTRATIVE REGULATIONS REGARDING ALTERNATIVE EDUCATIONAL OPPORTUNITIES FOR EXPELLED STUDENTS

I. Applicability of these Administrative Regulations

These administrative regulations shall apply in cases when, pursuant to state law, a student in the Branford Public Schools (the “District”) is entitled to an alternative educational opportunity during a period of expulsion.

II. Responsible Personnel

The administrator responsible for a school program (“responsible administrator”) from which the student has been expelled, or designee(s), shall maintain responsibility for compliance with these administrative regulations relative to the individual student who is being provided with the alternative educational opportunity.

III. Student Placement Procedures

- A. After a student has been expelled, and unless extraordinary circumstances exist, the responsible administrator, or designee(s), will take the following steps:
1. Meet with the expelled student’s parent(s)/guardian(s) prior to the student’s placement in an alternative educational setting to provide information concerning the potentially appropriate alternative educational opportunities for the student and to inform the parent(s)/guardian(s) and student of the right to apply for early readmission to school in accordance with Conn. Gen. Stat. Section 10-233d(j).
 2. Consult with relevant school personnel from the school from which the student was expelled, who are knowledgeable about the student, to obtain information regarding the student’s academic, social, and behavioral history that will help inform the decision concerning an appropriate alternative educational opportunity. Such information may be gathered by written reports.
 3. After placement options have been shared with the parent(s)/guardian(s), convene a placement meeting at which all alternative educational opportunities are explored and a placement decision is made.
- B. The educational programming and placement for expelled students who are eligible to receive special education and related services under the

Individuals with Disabilities Education Act (“IDEA”) shall be determined by the student’s Planning and Placement Team (“PPT”). In such case, Subsection A above shall not apply.

IV. Individualized Learning Plan

A. Development of the Individualized Learning Plan

After the student has been accepted into an alternative educational placement, the responsible administrator, or designee, will develop an Individualized Learning Plan (“ILP”) that will govern the programming for the student for the period of expulsion. To develop the ILP, the responsible administrator, or designee, will collaborate with school personnel from the school or program from which the student was expelled, the student and the parent/guardian, and will review all relevant student records.

B. Contents of the Individualized Learning Plan

1. The ILP will reference student records with information relevant to the provision of an alternative educational opportunity. These records may include:
 - a. Student success plan (for students who have a student success plan as mandated by state law, the student success plan may inform the ILP but does not replace the ILP);
 - b. Individualized education program (“IEP”);
 - c. Section 504 Plan;
 - d. Individualized health care plan or emergency care plan; and/or
 - e. Other relevant academic and behavioral data.
2. The ILP will address the following:
 - a. The student’s academic and behavioral needs and appropriate academic and behavioral goals and interventions, including the student’s core classes at the time of expulsion and the student’s current placement or progress in the curriculum for those classes so that the student has an opportunity to continue to progress in the Board’s academic program and earn graduation credits, if applicable;

- b. Benchmarks to measure progress towards the goals and ultimately, progress towards graduation;
- c. Provision for the timing and method for reviewing the student's progress in the alternative educational opportunity and for communicating that progress to the parent/guardian or student. For most students, monitoring and reviewing the student's progress will include monitoring the student's attendance, work completion and progress toward meeting the relevant academic standards for particular coursework, and thus progressing toward graduation, if applicable. The student's progress and grades will be communicated to the parents/guardians or student with the same frequency as similar progress for students in the regular school environment is reported and communicated to parents/guardians or students. The student's progress and grades will also be reported to the school or program from which the student was expelled;
- d. Provision for the timely transfer of the student's records both from the student's school or program to the alternative educational opportunity provider, and also from the alternative educational opportunity provider to the student's school or program; and
- e. The possibility of early readmission to the school or program from which the student was expelled and the early readmission criteria, if any, established by the Board of Education or Superintendent, as applicable.

V. Review of Student's Placement in Alternative Educational Opportunity and Individualized Learning Plan

- A. A review of the appropriateness of the placement must occur at least once per marking period.
- B. The placement review must include:
 - 1. Review of the ILP to (1) assess progress and make adjustments as necessary and (2) determine its alignment with the goals of the student's IEP, where applicable; and
 - 2. Consideration of opportunities for early readmission as set forth in the ILP, as established by the Board or Superintendent, as applicable.

VI. Transition Plan for Readmission

- A. Before a student is readmitted to the school or program from which the student was expelled, relevant staff should provide an opportunity to meet with the parents/guardians and student to discuss the student's readmission. As part of the readmission process and the student's ILP, the responsible administrator, or designee, should consider:
1. Efforts to readmit the student at a semester starting point (at the high school level);
 2. A plan to transfer the student's credits and records back to the school or program from which the student was expelled:
 - a. The District will award an expelled high school student appropriate high school credit for work satisfactorily completed during the period the student participates in the alternative educational opportunity and will transfer relevant records back to the school or program from which the student was expelled;
 - b. The District will provide an expelled student transferring to a new school district a progress summary of all work completed during the course of the student's expulsion, and will indicate the course credit earned by the student for that work.
 3. The student's need for academic and other supports upon returning to school or program; and
 4. Efforts to connect the returning student with opportunities to participate in extracurricular activities.
- B. In the event the responsible administrator, or designee, determines that a student's alternative educational opportunity is no longer beneficial to the student, but it remains inappropriate to return the student to the school or program from which the student was expelled, a plan for a different alternative educational opportunity may be developed in accordance with the procedures outlined in these Administrative Regulations.

STUDENT USE OF THE DISTRICT'S COMPUTER SYSTEMS AND INTERNET SAFETY

Computers, computer networks, electronic devices, Internet access, and electronic messaging systems are effective and important technological resources. The Branford Board of Education (the “Board”) has installed computers and a computer network(s), including Internet access and electronic messaging systems on Board premises and may provide other electronic devices that can access the network(s) and/or have the ability to send and receive messages with an operating system or network communication framework. Devices include but are not limited to personal computing devices, cellular phones, Smartphones, Smartwatches, network access devices, radios, personal cassette players, CD players, tablets, walkie-talkies, personal gaming systems, Bluetooth speakers, personal data assistants, and other electronic signaling devices. Electronic messaging systems include mobile, chat, and instant message; cloud collaboration platforms, including internal chat, peer-to-peer messaging systems, and draft email message transfer; and products that have the ability to create duration-based or subjective removal of content, such as Snapchat, and security focused platforms, such as Signal. The Board’s computers, computer network, electronic devices, Internet access, and electronic messaging systems are referred to collectively as “the computer systems” and are provided in order to enhance both the educational opportunities for our students and the business operations of the Branford Public Schools (the “District”).

These computer systems are business and educational tools. As such, they are made available to students in the District for education-related uses. The Administration shall develop regulations setting forth procedures to be used by the Administration in an effort to ensure that such computer systems are used by students solely for education-related purposes. The District will educate minor students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. Additionally, the District will implement a technology protection measure to block or filter Internet access to visual depictions that contain material that is obscene or obscene as to minors or contains child pornography, and ensure that such filtering technology is operative during computer use by minor students to the extent practicable when such students are using Board-owned computers or devices and Board-provided Internet access.

As the owner of the computer systems, the Board reserves the right to monitor the use of the District’s computers and computer systems.

FIRST READING MARCH 2024

**ADMINISTRATIVE REGULATIONS REGARDING STUDENT USE OF
THE DISTRICT'S COMPUTER SYSTEMS AND INTERNET SAFETY**1. Introduction*a. Access to District Computer Systems When Students Are Physically Present on School Property*

When students are physically present on Branford Public Schools (“District”) property, the Board of Education (the “Board”) is pleased to offer students access to the District's computers and computer networks, including access to electronic messaging systems (including e-mail) and the Internet, as well as electronic devices, (all of which will be referred to collectively as "computer systems"). Access to the school's computer systems will enable students to explore online resources, including but not limited to libraries, databases, websites, and bulletin boards while exchanging information with others. Such access is provided solely for education-related purposes. Use of the District's computer systems will be allowed only for students who act in a considerate and responsible manner in using such systems.

The Board and the Administration believe in the educational value of such computer systems and recognize their potential to support our curriculum by expanding resources available for staff and student use. The Board’s goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation and communication.

These computer systems are expensive to purchase, install and maintain. As the property of the District, these computer systems must be carefully handled and their integrity preserved for the benefit of all. Therefore, students are required to adhere to a set of policies and procedures, as set forth in detail below, in conjunction with their use of the computer systems. Violations may lead to withdrawal of the access privilege and/or disciplinary measures in accordance with the Board’s student discipline policy.

b. Access to District Computer Systems When Students Are Engaged in Digital or Remote Learning

The Board and the Administration recognize that technology is integral to the delivery of instruction if and when the District implements any form of digital or remote learning. The District may therefore provide students with remote access to some or all of the District’s computer systems so that students may access the district’s virtual learning environment. Such access, if granted, is provided solely for education-related purposes. Use of the District’s computer systems will be allowed only for students who comply with District policies and procedures concerning computer system use, and

demonstrate the ability to use the computer systems in a considerate and responsible manner.

These computer systems are expensive to purchase, install and maintain. As the property of the District, these computer systems must be carefully handled and their integrity preserved for the benefit of all. Therefore, students will be required to adhere to a set of policies and procedures, as set forth in detail below, in conjunction with their use of the computer systems. Violations may lead to withdrawal of the access privilege and/or disciplinary measures in accordance with the Board's student discipline policy.

3. Monitoring

Students are responsible for good behavior on school computer systems just as they are in a classroom or a school hallway. Communications on the computer systems are often public in nature and general school rules for behavior and communications apply. It is expected that users will comply with District standards and will act in a responsible and legal manner, at all times in accordance with District standards, as well as with state and federal laws.

It is important that students and parents understand that the district, *as the owner of the computer systems, reserves the right to monitor and review* the use of these computer systems. The District intends to monitor and review in a limited fashion, but will do so as needed to ensure that the systems are being used for District-related educational purposes.

As part of the monitoring and reviewing process, the District will retain the capacity to bypass any individual password of a student or other user. *The system's security aspects, such as personal passwords and the message delete function for e-mail, can be bypassed for these purposes.* The District's ability to monitor and review is not restricted or neutralized by these devices. The monitoring and reviewing process also includes, but is not limited to; oversight of Internet site access, the right to review electronic messages sent and received, the right to track students' access to blogs, electronic bulletin boards and chat rooms, and the right to review a student's data downloading and printing.

Therefore, all users must be aware that *they should not have any expectation of personal privacy in the use of these computer systems.*

4. Student Conduct

Students are permitted to use the District's computer systems for legitimate educational purposes. Personal use must be specifically authorized by a District staff member. Unauthorized personal use of District computer systems is expressly prohibited. Conduct which constitutes inappropriate use includes, but is not limited to the following:

Sending any form of a harassing, threatening, or intimidating message, at any time, to any person (such communications may also be a crime);

Gaining or seeking to gain unauthorized access to computer systems;

Damaging computers, computer files, computer systems or computer networks;

Downloading or modifying computer software of the District in violation of the District's licensure agreement(s) and/or without authorization from a teacher or administrator;

Using another person's password under any circumstances;

Trespassing in or tampering with any other person's folders, work or files;

Sending any message that breaches the District's confidentiality requirements, or the confidentiality of students;

Sending any copyrighted material over the system;

Using computer systems for any personal purpose, or in a manner that interferes with the District's educational programs;

Accessing or attempting to access any material that is obscene, obscene as to minors, or contains child pornography, as defined above;

Transmitting or receiving e-mail communications or accessing information on the Internet for non-educational purposes;

Cyberbullying;

Accessing or attempting to access social networking sites (e.g., Facebook, Twitter/X, Instagram, Snapchat, TikTok, etc.) without a staff member's authorization and/or a legitimate educational purpose.

The unauthorized use of generative artificial intelligence on any of the Board's computer systems. For purposes of this policy, "generative artificial intelligence" refers to a technology system, including but not limited to ChatGPT, capable of learning patterns and relationships from data, enabling it to create content, including but not limited to text, images, audio, or video, when prompted by a user.

In addition, as noted above, if a particular behavior or activity is generally prohibited by law, by Board policy or by school rules or regulations, use of these computer systems for the purpose of carrying out such behavior or activity is also prohibited.

Misuse of the computer systems, or violations of these policies and regulations, may result in loss of access to such computer systems as well as other disciplinary action, including suspension and/or expulsion, depending on the specific conduct.

Anyone who is aware of problems with, or misuse of these computer systems, or has a question regarding the proper use of these computer systems, should discuss the issue with a teacher or the school principal immediately. Most importantly, the Board and the Administration urge *any* student who receives *any* harassing, threatening, intimidating or other improper message through the computer system to report this immediately. It is the Board's policy that no student should be required to tolerate such treatment, regardless of the identity of the sender of the message. *Please report these events!*

5. Internet Safety

The Administration will take measures: to assure the digital safety and security of students when using electronic messaging systems, email, chat rooms, distance learning platforms, and other forms of direct electronic communications; to prohibit unauthorized access, including “hacking” and other unlawful activities by minors online; to prohibit unauthorized disclosure, use, and dissemination of personally identifiable information regarding students; to educate minor students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response; and to restrict students’ access to online materials that are obscene or obscene as to minors or contain child pornography, to the extent practicable when students are using Board-owned computers or devices and Board-provided Internet access.

6. Student Use Agreement

Before being allowed to use the District’s computer systems, students and/or their parents/guardians must sign a computer system use agreement, stating that they have read and understood the District’s policies and regulations regarding the use of its computer systems.

FIRST READING MARCH 2024

USE OF PRIVATE TECHNOLOGY DEVICES BY STUDENTS

Students may possess privately owned technological devices on school property and/or during school-sponsored activities, in accordance with the mandates of this policy and any applicable administrative regulations as may be developed by the Superintendent of Schools.

Definitions

Board Technology Resources

For the purposes of this policy, “Board technology resources” refers to the Branford Board of Education’s (the “Board’s”) computers and instructional technologies; communications and data management systems; informational technologies and the Internet; and any other technology resources owned and/or used by the Branford Board of Education (the “District”) and accessible by students.

Privately Owned Technological Devices

For the purposes of the this policy, “privately owned technological devices” refers to privately owned desktop computers, personal computing devices, cellular phones, Smartphones, Smartwatches, network access devices, radios, personal audio players, CD players, tablets, walkie-talkies, personal gaming systems, Bluetooth speakers, personal data assistants, and other electronic signaling devices.

Generative Artificial Intelligence

For the purposes of this policy, “generative artificial intelligence” refers to a technology system, including but not limited to ChatGPT, capable of learning patterns and relationships from data, enabling it to create content, including but not limited to text, images, audio, or video, when prompted by a user.

Use of Privately Owned Technological Devices

Privately owned technological devices may not be used during instructional time, except as specifically permitted by instructional staff or unless necessary for a student to access the District’s digital learning platform or otherwise engage in remote learning if remote learning has been authorized in accordance with applicable law.

On school property, at a school-sponsored activity, while in use for a remote learning activity if remote learning has been authorized in accordance with applicable law, or

while being used to access or utilize Board technology resources, the use of any such device for an improper purpose is prohibited. Improper purposes include, but are not limited to:

- Sending any form of a harassing, threatening, or intimidating message, at any time, to any person (such communications may also be a crime);
- Gaining or seeking to gain unauthorized access to Board technology resources;
- Damaging Board technology resources;
- Accessing or attempting to access any material that is obscene, obscene as to minors, or contains pornography;
- Cyberbullying;
- Using such privately owned device to violate any school rule, including the unauthorized recording (photographic, video, or audio) of another individual without the permission of the individual or a school staff member;
- Using such privately owned device for the unauthorized use of generative artificial intelligence; or
- Taking any action prohibited by any Federal or State law.

Search of Privately Owned Technological Devices

A student's privately owned technological device may be searched if the device is on Board property or in a student's possession at a school-sponsored activity and if there are reasonable grounds for suspecting that the search will turn up evidence that the student has violated or is violating either the law or the rules of the school. Any such search shall be reasonably related to the objectives of the search and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Responsibility for Privately Owned Technological Devices

Students are responsible for the safety and use of their privately owned technological devices. If a privately owned technological device is stolen, lost, or damaged while the device is on school property or during a school-sponsored activity, a report should be made to the building principal, who will investigate the loss in a manner consistent with procedures for stolen or damaged personal property. Students and parents should be aware that the Board is not liable for any privately owned technological device that is stolen, lost, or damaged while at school or during a school-sponsored activity. For that reason, students are advised not to share or loan their privately owned technological devices with other students.

Disciplinary Action

Misuse of the Board's technology resources and/or the use of privately owned technological devices to access or utilize the Board's technology resources in an inappropriate manner or the use of such devices in any manner inconsistent with this policy will not be tolerated and will result in disciplinary action. For students, a violation of this policy may result in loss of access privileges, a prohibition on the use and/or possession of privately owned technological devices on school property or at school-sponsored activities, and/or suspension or expulsion in accordance with the Board's policies related to student discipline.

Access to Board Technology Resources

The Board may permit students, using their privately owned technological devices, to access the Board's computers and instructional technologies; communications and data management systems; informational technologies and the Internet; and any other technology resources used by the District and accessible by students. Additionally, it is the expectation of the Board that students who access these resources while using privately owned technology devices will act at all times appropriately in ways which are fully in accord with applicable policies concerning technology use as well as all local, state, and federal laws.

Through the publication and dissemination of this policy statement and others related to use of the Board's computer systems, as well as other instructional means, the Board educates students about the Board's expectations for technology users.

The Board's technology resources shall only be used to access educational information and to promote learning activities both at home and at school. Students are expected to act at all times appropriately in ways that are fully in accord with applicable policies concerning technology use as well as all local, state, and federal laws when using the Board technology resources. Failure to do so will result in the consequences outlined herein and in other applicable policies (including, but not limited to, the Student Discipline Policy and the Use of Computers Policy).

Students must abide by the procedures outlined in this policy and all policies and applicable regulations outlined in the Board's computer use and other applicable policies. Students will be given specific information for log-on and access procedures for using school accounts. No user may deviate from these log-on/access procedures. **Students are advised that the Board's network administrators have the capability to identify users and to monitor all privately owned technological devices while they are logged on to the network.** Students must understand that the Board has reserved the right to conduct monitoring of Board technology resources and can do so *despite* the assignment to individual users of passwords for system security. Any password systems implemented by the Board are designed solely to provide system security from

unauthorized users, not to provide privacy to the individual system user. The system's security aspects, message delete function and personal passwords can be bypassed for monitoring purposes. Therefore, students should be aware that they should not have any expectation of personal privacy in the use of privately owned technological devices to access Board technology resources. This provision applies to any and all uses of the Board's technology resources and any privately owned technological devices that access the same.

Harm to Board Technology Resources

Any act by a student using a privately owned technological device that harms the Board technology resources or otherwise interferes with or compromises the integrity of Board technology resources will be considered vandalism and will be subject to discipline and/or appropriate criminal or civil action.

Closed Forum

This policy shall not be construed to establish a public forum or a limited open forum.
