4. Birbarie 139 West Main LLC. c/o
George D. Birbarie-Applicant & Owner
139 West Main Street
Zoning Map Amendment-
Motor Vehicle Sales/ Limited Repair
Application #17-2.4
A/R on 3/2/17, PH set for 4/6/17

Bob Criscuolo (Criscuolo Engineering) represented the applicant. He highlighted a Site Plan from 1984. He explained the zoning district boundary line splits the property with the rear portion of the property extending to Brooklawn Terrace zoned R-4, but the remaining portion of the property along West Main Street is zoned BL. The Applicant requests approval of a zone change for the rear area from R-4 to BL resulting in the whole property being designated BL. He then gave a brief history of the site. He felt it was a logical step and would make this a pre-existing legally non-conforming commercial building. He showed the Commission photos of the site.

H. Smith noted the Plan of Conservation and Development's Land Use map shows this site remaining in residential but the governing plan is the Comprehensive Plan of Zoning, which is different. It is a concept that consists of the Zoning Regulations and the Zoning Map as they evolved over time. He explained to the Commission that if they approve this, they need to find it is consistent with the Comprehensive plan, and the Commission must also consider the Plan of Conservation & Development.

The Commission discussed this briefly.

H. Smith reviewed Staff Report. He spoke of what the setbacks were in the 60's and 70's. He told the Commission if they look at the Comprehensive Plan of Zoning, they could make a valid finding that the Comprehensive Plan endorses this type of Regulation change and Map Amendment even though the Plan of Conservation and & Development doesn't show a difference or a change in this. Another factor is this area was commercial use when zoning was instituted. To insure maximum protection of the residential properties, H. Smith recommends rather than have the zoning district break in the middle of Brooklawn Terrace, to have the line come along the edge of the property. This would give a 20 foot residential setback

H. Smith noted he submitted 3 photos into the record.

PUBLIC INPUT:

No one spoke.

Chairperson Andres closed the Public Hearing.

5. Proletar Balliu- Applicant
Terry Brettman- Owner
684 East Main Street

OLD BUSINESS:

1. Branford Yacht Club-Applicant & Owner
39 Goodsell Point Road
Coastal Site Plan
Application #17-2.6
A/R on 3/2/17, Tabled from 3/16/17

Bob Criscuolo (Criscuolo Engineering) represented the applicant. He highlighted the application with plans and photos. He explained this is for a proposed deck extension which wraps against the building and joins another deck. It is approximately 730 square feet. They received the necessary variances.

R. Stoecker reviewed the Staff Report.

J. Vaiuso made a motion to approve the application with the finding listed in the Staff Report and the following condition:

1. Prior to the construction of the deck, erosion control measures should be installed to the satisfaction of the Zoning Enforcement Officer.
J. Chadwick seconded the motion which passed unanimously.
2. David I. Scheer-Applicant & Owner
2 Spring Rock Road
Coastal Site Plan
Application #17-3.1
A/R on 3/16/17, Tabled from 3/16/17

J. Lust recused himself. P. Higgins was seated in his place.

Paul Riccio (contractor) gave a brief history of the project. He stated he was contracted to build a seawall project at the site. He explained there is a path used by residents in the area to access the beach. The homeowner asked him to build a landscape wall to keep people on the path. He

called the Planning & Zoning Dept. and was referred to the Zoning Officer in the Pine Orchard Zoning area..The Zoning Officer in Pine Orchard told him he could construct the wall with no permit required if the wall was less than 3 feet in height. If the wall was over 3 feet in height, then he would be required to get a building permit and then get approval from Pine Orchard Zoning.

When the project was almost completed, a building official from the Town of Branford instructed him to stop working on the project. He then spoke to the Planning & Zoning Dept. and was instructed to complete a Coastal Area Management Application (CAM). So, he is asking for the board's approval to finish the project.

Tom Edwards (Architect) spoke next. He stated he obtained the original permit for the wall and the sidewalk repair. He agreed with Paul. He stated the Applicants are requesting the wall be 4 feet in height to keep people from walking on the wall. He described revised drawings for the wall which he showed the Commission that included 1' square openings.

H. Smith reviewed the Staff Report. He spoke briefly about the DEEP requirements and comments. He also spoke of the wall and documentation by DEEP (requested by the applicants) stating that it is a shoreline flood and erosion control structure . He also talked of the walkway; and how, over time, this has evolved as a public access. He reviewed the procedures in place for a CAM.

The Commission discussed this briefly.

Tom Edwards stated this wall was built between 1901 and 1910 and a few people were named who had access from the public street to the beach. Over time, more people used this access. The property owners have never contested that. The property owners want to protect the wall and don't mind people passing thru but they don't want people to stand on the wall or sit on it. That's why they want it to be 4 feet high.

Neighbors Bob & Susan Daigle spoke about the delay in the project and their desire to be able to use the walkway again.

H. Smith reviewed the conditions listed in the Staff Report including optional choices for conditions 3 and 4.

The Commission discussed the criteria of the Coastal Management Act allowing approval of a Shoreline Flood & Erosion Control Structure , if it will protect a water dependent use., noting "Public Access" was included as a "water dependent use."

M. Palluzzi made a motion to approve the application with the 2 findings and 4 conditions listed on the Staff Report modified to include a fifth condition which reads – Post Construction ,any obstacle placed in the public access walkway to block access shall be considered a violation of this Coastal Site Plan. J. Chadwick seconded the motion which passed unanimously.

Application #17-3.6
To be A/R

R. Stoecker reviewed the Staff Report. He explained the Planning & Zoning Commission approved a front deck for this property last year. Upon completion, it was noted that the side porch had been enclosed for a 3 season porch without approval. This application is a corrective action bringing the existing structure into conformance with the approval and accurately depicting the dimensions of the existing 3 season side deck/porch.

M. Palluzzi made a motion to approve the application with the condition listed on the Staff Report. J. Chadwick seconded the motion which passed unanimously.

5. Dow Realty, c/o Jeffrey Dow- Applicant
Six Twenty Two Associates-Owner

H. Smith noted this application needs to be reviewed by the Town Center Revitalization Review Board at the meeting scheduled for April 12. This Commission can't act on this until the April 20 meeting. However, the Applicant has requested a waiver of the A2 Survey requirement. H. Smith then briefly reviewed the application.

The Commission had a brief discussion and declined the applicants request for a waiver.

OTHER BUSINESS:

1. Cash bond acceptance for a driveway apron at 117 Linden Ave.

J. Vaiuso made a motion to accept the cash bond for the driveway apron at 117 Linden Ave. J. Lust seconded the motion which passed unanimously.

2. Planner's Report

1. H. Smith noted the Board of Selectman met last night and endorsed both Planometrics as the consultant for the Plan of Conservation & Development. and BFJ Co. as the consultant for the Transit Oriented District Study. He will keep the Commission updated.
2. J. Acquino(Zoning Enforcement Officer) asked for an item to be added to the agenda. The item is a interpretation of a 1986 Approval for Cedar Woods located at 80 Cedar Street regarding item D9 in the Statement of Use. This was submitted and approved as part of the application. He then explained the retirement community at Cedar Woods has had an on-site staff person available 24 hours a day. His understanding is that development was bought out by a larger company whose policy is to have a remote night time contact. There is no actual person on site at night. The residents would have individual buttons they could push and speak to someone if they need assistance. In the statement of use that was submitted as part of the application it states the emergency call system would be monitored 24 hours a day and there would be staffing available 24 hours a day. The Zoning Enforcement Officer and the Fire Marshal have been concerned about the number of calls received and from Cedar Woods and the ZEO feels there should be a staff person available 24 hours a day in the facility. The attorney for the development disagrees. This item will be discussed at a future meeting. The town attorney for Branford will be submitting his input.

J. Lust made a motion to add this item to the agenda. M. Palluzzi seconded the motion which passed unanimously.

Meeting adjourned at 9:15 pm
