hearing needs to be closed at the meeting and the email from the Regional Water Authority needs to be submitted into the record before the hearing is closed.

The Commission asked a few questions.

PUBLIC INPUT:

1. Vin Faricelli-11 Autumn Ridge Rd- He said he was the person who submitted the prior site plan to the pz office that showed the road coming out from Autumn Ridge to Cherry Hill Rd. He spoke of traffic and how it will increase if this is approved as a cul de sac. He noted that there is a lot of traffic around Murphy school. A simple entrance and exit onto Cherry Hill Rd will prevent a lot of traffic issues. To keep the project as it is planned now throws the burden of the excess traffic onto the neighbors. There is only about 50 ft of road that would need to be repaired to make this work. He asked that the right thing be done. The neighbors are not against the development.
2. Tom & Lisa MacNamara- 29 Autumn Ridge-They echoed what Vin Faricelli said. He is correct when he spoke of the effect of this development onto surrounding neighborhoods. He also agreed that there is only about 50 feet or so of road that would have to be improved. Lisa added that maybe a traffic study is necessary and gave reasons why and noted the traffic problem near Veterans Park during sporting seasons. She noted the portion of the road that is substandard has been that way since she's lived there. Isn't it time to bring up the road to standards? Make it a viable road and that would solve many problems.
3. Chris & Joe Fontana-19 Autumn Ridge- She thanked Vin and Lisa for speaking on the neighborhood behalf and noted that the neighbors are not upset by the development being built but noted they are not happy about the traffic going onto Autumn Ridge. It's a quiet area now but they have had issues with break ins. She is worried about safety and the possibility of more thefts during the development of this project. She mentioned Todds Hill Rd neighborhood and how they are cookie cutter homes. She hopes that doesn't happen there since it won't enhance their neighborhood. Also, she asked; what will happen if the developer runs out of money? They want to see the development done the right way.
4. Mr. Wolfe-Avon Ave. - talked of the neighbors mentioning their property values. It doesn't have to do with anything. He said he doesn't think the bridges on that road could handle more traffic. The neighbors should have done their due diligence. How can you put the burden on Cherry Hill Rd?
5. Mr. Proto- He is one of the two homes that would be impacted by the road. He spoke of Mr. Wolfe's chats and his questions. He doesn't agree with him when he mentioned the neighbors complaining. When they bought their house years ago, he is on the corner and he thought there would be a road going to Cherry Hill. He was assuming that there would be a road on both sides of him and that would reduce traffic. There is a lot of traffic now that wasn't present 20 years ago.
6. Tom McNamara spoke again- He referred to Mr. Wolfe's comments. He doesn't have all the facts. Property values are not the only consideration, there are other issues. Traffic, etc. he mentioned the headlights going into people's homes will be a nuisance.
7. Mr. Wolfe replied that the people that spoke are not making any sense.
8. Maria Congiliario –She said when she moved in 20 years ago they know there was an easement. They are not opposed to the development but the traffic is a problem. She noted that there are no sidewalks so they have to walk in the road. Things were different 20 years. She felt it was dangerous, she asked the commission to think about their safety.

9. Vin Faracelli- He noted there is a lot of concern that was expressed tonight. He asked the developer to rethink this. Put the entrance and egress on Cherry Hill Rd.
10. Joe Fontano- He had an idea that hasn't been presented yet. What about the road come in from Cherry Hill Rd. and the emergency road go out to Autumn Ridge? It's an option. He asked the Commission to think about the safety and the neighbors' concerns.

James DiMeo responded to some of the comments made.

11. Julie Ristaino -17 Autumn Ridge Rd- asked how it is appropriate to tell homeowners that pay 14,000 in taxes that there is a substandard road next to their development. She also asked how many extensions are allowed on a particular road. This will be a fourth extension in that area. The people at the top of the road will get the bulk of the traffic.

Attorney Langer had previously requested that the Commission take a straw poll.

Chairperson Andres replied that when the Commission has deliberations, they can advise Attorney Langer of which way they are leaning as far as a decision goes.

Chairperson Andres closed the public hearing for applications #21-8.1 and #21-12.8.
