Re: Main Street Gateway Project Public Information Meeting

Dear Property Owner,

The Town of Branford has initiated plans to improve Main Street, Route 146, from Kirkham Street to the Town Green. This project includes a roundabout at the intersections of Main, Laurel, Eades and South Main Streets, as well as other road improvements in the area. The project will be funded by the State of Connecticut and in part by the Town of Branford.

It is Town and State policy to keep people informed and involved when such projects are undertaken. It is important that the community share its concerns with us to assist in the project's development. Therefore, we have scheduled a public information meeting for this project on Thursday, July 13, 2017 at 7:00 PM at Fire Headquarters (see enclosed notice).

If you are not able to attend the meeting and would like to obtain further information or provide input, please contact me at engineering@branford-ct.gov or (203)315-0606.

Very truly yours,

Janice A. Plaziak, P.E.
Town Engineer
