Peter ~ Thanks for getting in touch.

The proposed line item transfer is to cover a shortfall in the line item we use for legal advertisements in a newspaper (required by state statute) for public hearings associated with development applications. The shortfall was due to the number of applications received in the last fiscal year, higher advertisement costs, and the need to occasionally advertise in the daily New Haven Register (at a much greater cost) instead of weekly The Sound due to timing issues.

Let me know if you need more explanation. I can also attend the meeting if needed.

Thanks again. ~ Harry

Harry:

I am holding a Special Meeting of the RTM Rules & Ordinances Committee on December 12 via Zoom to review the Planning & Zoning Departmental request for a transfer of funds (see attached agenda). You don't need to attend this meeting, but it would be helpful in asking for the approval of the Committee if you would email me a few brief sentences of explanation of the reason for the

request. Thanks.

Let me know if you have any questions.

Peter

Hi Peter:

The WPCA includes among their annual capital request 25 - 50k as part of a generator and transfer switch replacement program. This transfer is simply taking the balance of the FY 21 project and combining it with the FY 24 project so as to void the funds lapsing pursuant to the capital projects ordinance adopted by the RTM.

Attached is their request for FY 2021.

Jim

Jim:

I will hold a special meeting of the R&O prior to the RTM meeting on the 13th to review and approve your request to transfer and combine funds in the Water Pollution Control capital account.

Would you email me a brief (2 or 3 sentence) explanation of that transfer to use as a basis for approval, thanks?

Peter
